CHAPTER 1: …….01-47

INTRODUCTION

1.1 Operations Research (OR) 01
1.2 Objectives of OR 04
1.3 OR Activities 04
1.4 OR in Management 05
1.5 Phases of Operation Research 07
1.6 Models in OR 08
1.7 Types of Models 09
1.8 Introduction of Inventory 10
1.9 Need of Inventory 11
1.10 Objectives of Inventory 12
1.11 Inventory Management 15
1.12 Functions of Inventory 17
1.13 Classification of Inventory 19
1.14 Costs Associated with Inventory 23
1.15 Cost Balancing 28
1.16 Inventory Terminology 29
1.17 Obsolescence of Inventory 33
1.18 Disposal of Obsolete Inventory 34
1.19 Inventory Modelling 35
1.20 Inventory Control Models 36
1.21 Inflation 43

CHAPTER 2: …….48-78

LITERATURE REVIEW

2.1 Survey of Inventory Models for Deteriorating Items 48
2.2 Survey of Inventory Models with Inflation 60
2.3 Survey of Partial Backlogging Inventory Models 65

CHAPTER 3: ……...79-101
A SUPPLY CHAIN MODEL WITH TWO-STORAGE FACILITY AND PARTIAL BACKORDERING UNDER INFLATION
3.1 Introduction 79
3.2 Assumptions and Notations 82
3.3 Formulation and Solution of the Model 85
3.4 Numerical Example 95
3.5 Sensitivity Analysis 96
3.6. Conclusion 101

CHAPTER 4: …… 102-122
A TWO WAREHOUSE MODEL WITH LEAD TIME AND PARTIAL BACKLOGGING IN INFLATIONARY ENVIRONMENT
4.1 Introduction 102
4.2 Assumptions and Notations 104
4.3 Formulation and Solution of the Model 107
4.4 Numerical Example 118
4.5 Sensitivity Analysis 119
4.6 Conclusion 122

CHAPTER 5:……..123-134
AN INVENTORY MODEL FOR DECAYING ITEMS WITH VARIABLE STORAGE COST, STOCK DEPENDENT DEMAND RATE AND SHORTAGES UNDER INFLATIONARY ENVIRONMENT
5.1 Introduction 123
5.2 Assumptions and Notations 126
5.3 Formulation and Solution 127
5.4 Numerical Example 130
5.5 Sensitivity Analysis 130
5.5 Graphical Representation of Concavity of the Profit Function 133
5.6 Conclusion 133

CHAPTER 6: …… 135-149
EFFECT OF TRADE CREDIT WITH STOCK DEPENDENT DEMAND UNDER INFLATION OR INVENTORY SYSTEM
6.1 Introduction 135
6.2 Assumptions and Notations 138

6.3 Mathematical Formulation and Solution 140
6.4 Numerical Example 146
6.5 Conclusion 148

CHAPTER 7: ……..…. 150-165
A PRICING LOT SIZE MODEL FOR TIME DEPENDENT DETERIORATING ITEMS WITH PRICE AND STOCK DEPENDENT DEMAND IN INFLATIONARY ENVIRONMENT
7.1 Introduction 150
7.2 Assumptions and Notations 152
7.3 Model Formulation 154
7.4 Algorithm 161
7.5 Numerical Examples 162
7.6 Conclusion 165

BIBLIOGRAPHY.....166-179
