

## LIST OF FIGURES

---

	<b>Page No.</b>
Fig. 1.1 : EOQ model with constant demand rate with shortages.	38
Fig. 1.2 : Variation in Total Relevant Costs with respect to the lot size.	40
Fig. 1.3 : EOQ Model with gradual supply and shortages.	41
Fig. 3.1 : Graphical representation of a two-warehouse system for the retailer	86
Fig. 3.2 : Concavity of the profit function for the retailer	96
Fig. 3.3 : Variation in profit for the supplier	99
Fig. 3.4 : Variation in profit for the retailer	99
Fig. 4.1 : Graphical representation of a two-warehouse system for the retailer	108
Fig. 4.2 : Concavity of the profit function for the retailer	118
Fig. 4.3 : Variation in profit for the supplier	121
Fig. 4.4 : Variation in profit for the retailer	121
Fig. 5.1 : Graphical representation of concavity of the profit function	133
Fig. 6.1 : Inventory system for buyer	141
Fig. 6.2 : Graphical representation of the system	147
Fig. 6.3 : Graphical representation of the system	148
