ACKNOWLEDGEMENTS

First and foremost, I offer my deepest sense of gratitude to my mentor Dr. Anil Kumar Dwivedi, Chief Scientist, CDRI, who believed in, encouraged & supported my efforts and provided intellectual stimulation, continuing exhilarative & sagacious guidance throughout my work. His scholarly suggestions, prudent admonitions, immense interest, constant help, affectionate and calm behaviour have been a light for me. He has taught me, both consciously and un-consciously, how good experimental research work is done. I appreciate all his contributions of time, ideas, and funding to make my Ph.D. experience productive and stimulating. The joy and enthusiasm he has for research was contagious and motivational for me, even during tough times in the Ph.D. pursuit. I am touched with his patient and sympathetic nature and consider myself fortunate enough to work under his supervision.

I am immensely happy to convey my heartily thanks to my supervisor, Dr. Sarvesh Kumar Paliwal, Professor and Head, Department of Pharmacy, Banasthali University, Rajasthan, for always being so enthusiastic about the projects, and incredible ambiance during my research and for his valiant decision to accept me as a PhD student and for his interest in my work, I have been involved in, and for his endless support throughout my studies. His generous nature and tactful solutions toward my problem has deeply influenced my personality and perception toward life. He provided me all the necessary help and support whenever I needed including my visit to Banasthali University.

I wish to thank Dr Manish Chourasia, Scientist, Pharmaceutics Division, CDRI, Lucknow for providing a stimulating environment and a friendly working atmosphere for pleasant and stimulating discussions, related to any problems. Many thanks are also extended to Dr.
Amit Misra, and Dr P.R Mishra, CDRI, for providing me the necessary help and support encountered during my research work. Thank you for the invaluable scientific input and for all your personal advice.

To CSIR-CDRI, Lucknow I express my sincere thanks for giving me an opportunity to work in this prestigious, one of its kind, Institute of India and Indian Council of Medical Research (ICMR), New Delhi, for providing me fellowship that has nurtured my research works.

I am extremely thankful to Prof. Aditya Shastri, Vice Chancellor, Banasthali University, Rajasthan, for providing opportunity for Ph.D work.

I would also like to thank Mrs. Madhuri Chaudhary, Mr. S. K. Bhatnagar, Sarvan, Deepak Sharma and Mrs. Pooja Taneja for their encouragement, support and providing a very co-operative and friendly atmosphere.

I am highly obliged and grateful to Dr. Anil Mishra, Scientist, INMAS New Delhi and Mrs. Krishna chauttani in shouldering the responsibility for carrying out the in vivo activities.

I overwhelmingly acknowledge Dr Sarika Singh and Dr Sharad Sharma, Scientist, Toxicology Division, CDRI for their sincere help in the various toxicity studies.

I would specially like to thank my seniors Girish gupta, Richna gupta and Mohini Chourasia for providing me enough base to start my project work. They provided me all basic information and helped to learn fundamentals of techniques used by me in research. I would specially like to thank my lab colleagues Dr. Arshi Naqvi, Mrs. Richa Joshi, Varsha gupta, madhumita srivastava, ankansha shrivastav, Vivek Patel, Mr. Shakti Deep Pachauri, Mr. Kiran Khandelwal , Rishi Ranjan Pandey, Hafsa amad, Annie Gupta, Abhishek arya, Swati gupta
and satish for helping me and supporting with practical matters concerning this thesis with positive attitude. They were always there to offer me great support with amazing suggestions in both professional and personal matters.

I wish to express sincere thanks to my lab mates Mr. Pankaj Dwivedi for full support in carrying out my research work. I also appreciate the affection of all my division members as Rahul verma, Ashwini Verma, Shaswat Kansal, Komal Sharma, jaygopal, Vivek Pawar, Yuvraj Singh, Pankaj Singh, Kajal Devi, Mradul Mohan, Atul Agrawal, Sanket, ashish, Shweta sharma and kavit. I will also extend my thanks to my college mates Ankanchha jain, pooja mongia, vikas mishra, abhilasha, pooja, mohit, vishal, Abha, Divya, mayank, neelesh and sneha who all gave me the thought of doing Ph.D and there unconditional support during my college days. Anubhuti dixit, kritika prakash, Amit and Pramode for their moral support and kind cooperation. I also wish to thanks all trainees Ramakant Mishra, Vijay Bhaskar Reddy, Tushar Sharma, Mansi upadhyay, chanda and Nisha which come under the guidance of Dr.A. K. Dwivedi.

This work could have been completed with the blessings and support of my husband Tarun and my In-laws, Raghbir Rajora (Father-in-law), Nirmila Rajora (Mother-in-law), Satvijay rajora and Deepshika (Brother-in-law and Bhabhi), vandana rajora (Sister-in-law), Arnav, Ishan and Gurasha (Kids) They providing me the path to go ahead in each and every aspect of my new life. Without their support I was not able to make such a delightful carrier.

It would be immoral if forgot to acknowledge the silent sacrifice of innocent mice and rats without whom this work will never have been completed.
The driving forces for accomplishment of my venture are my beloved parents, Mummy (Smt. Rajkumari Khatik), Brothers and Bhabhi (Vipender- rachna, Inder-Sony and Jwala Khatik) who extended every care, moral support and affection not only in this period but during my entire span of life. I pay my sincere obeisance to other real family members as Mrs Susil Kale (Mamaji), Vejanti Kale (Mami), Minto (Cousin), Mony (Cousin), Akanshi (Cousin) without whom encouragement it was near impossible to fulfill my objective. I am grateful to my relatives Mrs Rashmi Kale (Masi ji).

I can never forget the blessings which I have got from Late Nana ji, I lost them during my Graduation term which was the most setback for me but their blessings made me complete my Ph.D.

Finally, I want to dedicate all my endeavors to feet of God without whose will nothing can be accomplished.

Renuka Khatik
