ACKNOWLEDGEMENTS

A formal line of appreciation would hardly meet the end of justice to record my best regards to those who have helped me to complete this manuscript.

Any thesis is the culmination of course of study for Doctoral degree, as such it forms the crown piece. This crown piece of my Ph. D. (Biotechnology) degree would take its shape due to the unfailing encouragement, constructive criticism, sympathetic attitude and keen interest of Prof. D. Theertha Prasad my research guide. So my most sincere thanks are due to Sir who is my friend, philosopher and supervisor all three in one. Completion of my thesis is the result of his co-operative nature and intellect of honorable guidance. Indeed it’s my fortune that I am honored to be one of his students.

I am fortunate enough to have invaluable guidance, expert advise, encouragement and timely help from Prof. G. B. Dixit, Head, Department of Botany, Shivaji University, Kolhapur as Co-supervisor. I owe an indebtedness to him, for rendering worthy suggestions and supporting me during the present research work.

I am highly obliged to Mr. Shivajirao Deshmukh, Hon’ble Director General, Vasantdada Sugar Institute, Pune for giving an opportunity and financial support towards completion of my doctoral research studies. Prof. N. J. Pawar, Hon’ble Vice Chancellor, Shivaji University, Kolhapur for encouraging me to carry out doctoral work under Shivaji University, Kolhapur.

I, as the author of this thesis also records sincere gratitude to Dr. (Mrs.) Jyoti P. Jadhav, Head, Department of Biotechnology, Shivaji University, Kolhapur, Dr. S. P. Govindwar, Prof. V. A. Bapat for their most able useful suggestions, illuminating guidance and fruitful criticism, which provided me, solace during tenure of this investigation.
I am indebted to Prof. K. R. Koundal, Dr. Shiva Reddy, and Dr. P. K. Ranjekar, RAC members of VSI whose valuable suggestions and criticism lifted my research career to this acme and inspired me to bring best out me.

I have immense pleasure in expressing my hearted indebtedness towards Dr. Y. S. Nerkar, Dr. S. B. Verulkar, Dr. V. S. Ghole, Dr. Mrs. Vidya Gupta, Dr. T. Mohapatra, Dr. S. Anandan, Dr. K. H. Babu, Dr. R. M. Devarumath, Dr. Mrs. Kanchan Nasare, Dr. Girish Chandel, Dr. Devoshri Selote, Dr. Rahuram, Dr. Ashok Giri, Dr. Mahesh Kulkarni, Dr. Tulsiiram, Dr. D. K. I take this opportunity to express my deepest sense of gratitude and regards to my Aai, bother Sanjay, sisters Anjali, Manjusha, brother-in-laws Rajvidhya, Bakshi, few of my
relatives noteworthy Deshpande, Phadke and Bhide family, friends Magar, Shivankar, Umeshbhau, Sureshbhau, Adv. Manish, Sanjumama, Shyambhau, Shiva, Shyam, Baba, Subodh, Nishinkant, Tushar, Sujeet, Amol, Paresh, and Arjun for their kind moral support, inspiration, affection and it's their blessings in bringing the cherished expectation true and to the Lord Shree Sai-Samartha for showering his blessings.

My study work cannot be finished without the lot of love of some kids, Aishu, Rutu, Arya and Rajas. I would like to thank these kids for their love, which is the strength of my life and always make me to forget the tiredness with their cherubic smiles and naughty tricks. My blessings are always with them.

It will be unfair if I don't mention the names of Shree SaiRaj Biotech, Pune and GeneOmbio Tech. Pvt. Ltd., Pune for their prompt sequencing services and supply of bio-chemicals along with the great help of Mr. Faroqui for supplying the required chemicals on short time notice.

I express my sincere acknowledgement to all the scientists and researchers whose work in from of reviews provided me the most important segment of this manuscript.

Thanks are also due to them who directly or indirectly have been source of help and inspiration whose mention did not find place on this desired submission.
