ACKNOWLEDGEMENT

An individual commences the itinerary of research work and attains the destination alone. But this journey would not have been prolific without collaboration of countless individuals. It would be my earnest yearning to acknowledge the inspiration, indefatigable efforts, and facilitation of all the erudite personnel in en-routing my journey towards accomplishment.

The bond that I struck with my guru has shaped my academic pursuits incessantly. It was at his acceptance that I got myself enrolled in Ph D programme. Therefore the first person I would like to thank is my supervisor and guide Dr Ved Vyas Dwivedi, Director & Principal, Noble Group of Institutions, Junagadh, Gujarat for his dexterous guidance when I was really facing the stumbling blocks ad-infinitum of my research work. Despite his busy schedule, he is always available to steer me in keeping my morale fabric intact when I really wished to surrender. I owe a lot to him for being my mentor.

I would like to thank Shri Jagdishprasad Jhabarmal Tibrewala University, Rajasthan for helping me obtain the space into its list of research scholar and Ph. D coordinator of the JJT University Prof. Wazir Singh, for reviewing my work and putting in remarkable suggestions for improving the work that I carried out.

It would be my privileged to tender my indebtedness in the lotus feet of P P Tyagvallabh Swamiji, beneath whose auspices I got privileged to be with esteemed Atmiya Institute of Technology & Science, Rajkot. I benignly render my lexes of gratitude to him for helping me exercise the state of the art learning conveniences of the institute.

I feel a deep sense of gratitude for my loving mother Jayshreeben for their emotional support and blessings while I was busy with this doctoral work. I would like to thank her from the depth of my heart.

Behind every successful man, there is a woman: so goes a popular saying. My wife Mital has proved this time and again. Thank you, Mital for being there for me always! Our bundle of joy, Riya is the very cause of our being. Her child like curiosity and persistence in learning new skills have played a major part in refilling me with the energy to carry on with this research even at time when my spirits drooped.

Of course, I thank God Almighty for all His blessings He has showered on me throughout my life so far and pray to Him for His grace all the time.

Ashish Mahendrabhai Kothari
