The next step in research process after data collection is processing and analysis of data. This is essential for a scientific study and for “ensuring that relevant data have been collected for making contemplated comparisons and analysis.” For a given study, the researcher uses these comparisons and analysis to draw relevant conclusions. This is done through descriptive analysis and inferential analysis. In the present chapter, the researcher has described data that was collected during data collection process.
4.2 DATA ANALYSIS

1. I like to chat on Facebook.

Table no. 4.1

<table>
<thead>
<tr>
<th>Response</th>
<th>Agree</th>
<th>Strongly Agree</th>
<th>Undecided</th>
<th>Disagree</th>
<th>Strongly Disagree</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>No. of Res</td>
<td>134</td>
<td>-</td>
<td>10</td>
<td>56</td>
<td>-</td>
<td>200</td>
</tr>
<tr>
<td>% of Res</td>
<td>67 %</td>
<td>-</td>
<td>05 %</td>
<td>28 %</td>
<td>-</td>
<td>100 %</td>
</tr>
</tbody>
</table>

Observation:-
Out of the total
i. 67% of students agree that they like to chat on Facebook.
ii. 00% of students strongly agree that they like to chat on Facebook.
iii. 05% of students could not decide whether they like to chat on Facebook.
iv. 28% of students disagree that they like to chat on Facebook.
v. 00% of students strongly disagree that they like to chat on Facebook.

Interpretation:- Adolescents agree that they like to chat on Facebook.

Findings:- Most of the students like to chat on Facebook.

I like to chat on Facebook.
2. I get annoyed if siblings behave mischievously.

Table no. 4.2
<table>
<thead>
<tr>
<th>Response</th>
<th>Agree</th>
<th>Strongly Agree</th>
<th>Undecided</th>
<th>Disagree</th>
<th>Strongly Disagree</th>
<th>Total</th>

<tr>
<td>% of Res</td>
<td>63 %</td>
<td>11 %</td>
<td>11 %</td>
<td>10 %</td>
<td>05 %</td>
<td>100%</td>
</tr>
</tbody>
</table>

**Observation:-**

Out of the total samples surveyed

i. 63% of students agree to get annoyed if siblings behave mischievously.

ii. 11% of students strongly agree to get annoyed if siblings behave mischievously.

iii. 11% of students could not decide whether they get annoyed if siblings behave mischievously.

iv. 10% of students disagree to get annoyed if siblings behave mischievously.

v. 05% of students strongly disagree to get annoyed if siblings behave mischievously.

**Interpretation:-** Adolescents get annoyed if siblings behave mischievously.

**Findings:-** Most of the students agree that they get annoyed if siblings behave mischievously.
3. I like to spend time with friends.
Table no. 4.3

<table>
<thead>
<tr>
<th>Response</th>
<th>Agree</th>
<th>Strongly Agree</th>
<th>Undecided</th>
<th>Disagree</th>
<th>Strongly Disagree</th>
<th>Total</th>

</tr>
<tr>
<td>% of Res</td>
<td>74 %</td>
<td>24 %</td>
<td>-</td>
<td>02 %</td>
<td>-</td>
<td>100%</td>
</tr>
</tbody>
</table>

Observation:-
Out of the total students surveyed
i. 74% of students agree that they like to spend time with friends.
ii. 24% of students strongly agree that they like to spend time with friends.
iii. 00% of students undecided that they like to spend time with friends.
iv. 02% of students disagree that they like to spend time with friends.
v. 00% of students strongly disagree that they like to spend time with friends.

Interpretation:- Adolescents like to spend time with friends.

Findings: - Most of the students agree that they spend time with friends.

I like to spend time with friends.
4. I like to see myself in the mirror while going out.

Table no. 4.4
<table>
<thead>
<tr>
<th>Response</th>

<td>07 %</td>
<td>73 %</td>
<td>-</td>
<td>12 %</td>
<td>8 %</td>
<td>100%</td>
</tr>
</tbody>
</table>

**Observation:-**

Out of the total students

i. 07% of students agree that they like to see themselves in the mirror while going out.

ii. 73% of students strongly agree that they like to see themselves in the mirror while going out.

iii. 00% of students could not decide whether that they like to see themselves in the mirror while going out.

iv. 12% of students disagree that they like to see themselves in the mirror while going out.

v. 08% of students strongly disagree that they like to see themselves in the mirror while going out.

**Interpretation:-** Adolescents like to see themselves in the mirror while going out.

**Findings: -** Most of the students strongly agree that they to see themselves in the mirror while going out.

I like to see myself in the mirror while going out.
5. I like to tell daily incidents from class/school to my mother.

Table no. 4.5
Observation:-
Out of the total students surveyed
i. 13% of students agree that they like to tell daily incidents from class/school to their mother.
ii. 61% of students strongly agree that they like to tell daily incidents from class/school to their mother.
iii. 00% of students could not decide whether that they like to tell daily incidents from class/school to their mother.
iv. 22% of students disagree that they like to tell daily incidents from class/school to their mother.
v. 04% of students strongly disagree that they like to tell daily incidents from class/school to their mother.

Interpretation:- Adolescents like to tell daily incidents from class/school to their mother.

Findings: - Most of the students strongly agree that they like to tell daily incidents from class/school to their mother.

I like to tell daily incidents from class/school to my mother.

Graph no. 4.5
6. If I do not study, my parents scold me.

Table no. 4.6
<table>
<thead>
<tr>
<th>Response</th>
