

ACKNOWLEDGEMENTS

I am deeply grateful to Prof. Asis Datta, for his valuable guidance, constant encouragement and understanding throughout the progress of this work, due to which it has reached its present shape. I am indebted to Dr. Balraj Singh who helped me to develop an understanding of experimental problems. I am also grateful to Prof. H.K. Das for allowing me to use some of his laboratory facilities.

It has been a pleasure to have worked with Gaiti, Niren, Rai, Malaya, Shobha, Reddy and Natarajan, and my most sincere thanks are due to them for their help in more ways than one.

I would like to thank Sudipto, Aniruddha, Gagan and J.P. for helping me. My thanks are also due to Rajesh for all his help.

I extend my thanks to Bishnu Pada Mondal and Chhotelal for their excellent technical assistance, and to Mr. A.C. Alexander for his kind co-operation. I take this opportunity to thank Mr. R.N. Saini for making the line diagrams and photographs and Mr. H.K. Batra and Mr. Ahuja for their expert typing. I would like to thank Messrs Friends Typewriter Company for their co-operation.

I would like to thank all my teachers and friends in the School.

21011A-11111A

The love, encouragement and understanding of many of my friends and my family has been a constant source of strength for me at all times.

Finally I would like to thank the Kothari Scientific Research Institute and the Council of Scientific and Industrial Research for providing me with financial assistance in the form of a fellowship.
