CONTENTS

CHAPTER 1 INTRODUCTION 1-3
Introduction 1
Specific Objectives 3

CHAPTER 2 REVIEW OF LITERATURE 4-36
2.1 Magnitude of Breast Cancer 4
2.1.1 Global Scenario 4
2.1.2 Indian Scenario 7
2.1.3 Kerala Scenario 8

2.2 Risk Factors of Breast Cancer 11
2.2.1 Age 12
2.2.2 Generic and Familial Aspects 13
2.2.3 Exogenous Estrogen 14
2.2.4 Reproductive Factors 16
  2.2.4.1 Age at Menarche 16
  2.2.4.2 Age at Menopause 17
  2.2.4.3 Nulliparity and Late Age at First Child Birth 17
2.2.4.4 Breast Feeding 18
2.2.5 Physical Activity 18
2.2.6 Anthropometric Factors 20
2.2.7 Oral Contraceptives 22
2.2.8 Benign Breast Diseases 23
2.2.9 Diet 24
  2.2.9.1 Dairy Products 25
  2.2.9.2 Meat and Fish 27
    Red Meat 28
    White Meat 29
    Processed Meat 31
CONTENTS (Contd....)

2.2.9.3 Fruits and Vegetables 32
  Fruits 33
  Vegetables 34
2.2.9.4 Dietary Fiber 35
2.2.9.5 Alcohol Consumption 35

2.2.10 Other Factors 36

CHAPTER 3 MATERIALS 37-42

3.1 Study Design 37
3.2 Risk Factors 38
  3.2.1 Socio Demographic Factors 38
  3.2.2 Reproductive Factors 39
  3.2.3 Anthropometric Factors 40
  3.2.4 Physical Activity 41

CHAPTER 4 STATISTICAL METHODS 43-55

4.1 Distribution of Risk Factors 43
4.2 Risk Estimation using Binary Logistic Regression Model 43
  Method of Maximum Likelihood Estimation 45
  Confidence Intervals and Tests of Significance 46
  Likelihood Ratio Test 48
4.3 Assessment of Degree of Confounding using LR Model 49
4.4 Assessment of Interaction between Risk Factors using LR Model 52
4.5 Assessment of Goodness of Fit 53
4.6 Test for Linear Relationship 54
4.7 Etiologic Fraction and Prevented Fraction 55
CONTENTS (Contd....)

CHAPTER 5  RESULTS  56-116

5.1  Distribution of Risk Factors by Menopausal Status  56

5.1.1  Socio-demographic Factors  56
5.1.2  Reproductive Factors  58
5.1.3  Anthropometric Factors  61
5.1.4  Physical Activity  61

5.2  Assessment of Degree of Confounding  65

5.2.1  Reproductive Factors  65
5.2.2  Anthropometric Factors  78
5.2.3  Household Physical Activities  89

5.3  Assessment of Interaction between Risk Factors  102

5.3.1  Assessment of Interaction between Lifetime Duration of Breast-feeding and Parity among Breastfed Women  102
5.3.2  Assessment of Interaction between BMI and Total Physical Activity  102

5.4  Risk Assessment using Multivariate Logistic Regression Model  106

5.4.1  Reproductive Factors  106
5.4.2  Anthropometric Factors  110
5.4.3  Level of Household and Occupational Physical Activities  112

5.5  Population Attributable Risks  115

CHAPTER 6  DISCUSSION  117-124

CHAPTER 7  SUMMARY AND CONCLUSION  125-126
