

LIST OF TABLES

Table 1.1: Typical Characteristics of Domestic Septic Tank Effluent	18
Table 1.2: Safe Distances of Wells from Polluting Sources	19
Table 1.3: Status of Sewerage and Sewage in Class I Cities and Metros.....	25
Table 1.4: Nitrogen Removal and Conversion Processes	26
Table 3.1: Typical Composition of Synthetic Waste	57
Table 3.2: Characteristics of Selected Bed Media	63
Table 3.3 : Nitrogen Removal Comparison of Selected Bed Media at 24 Hours HRT	63
Table 3.4: Phosphorus Removal Comparison of Selected Bed Media at 24 Hours HRT ...	64
Table 3.5: Growth Rate Parameters of Macrophytes in Selected Media	68
Table 3.6: Nitrogen Uptake of Typha Latifolia.....	83
Table 3.7: Phosphorus Uptake of Typha Latifolia	86
Table 3.8: Variation in Effluent Characteristics with HRT, in Field Scale RZTS at Established Phase	89
Table: 4.1: Comparison of Rate Constants for Various Kinetic Models.....	106
Table 4.2: Reaction Rate Parameters in Distributed Parameter Model for Planted Reactor ...	114
Table 4.3: Reaction Rate Parameters in Distributed Parameter Model for Reference Reactor	115
Table 4.4: Comparison of Predicted and Measured Nutrient Values Using Lumped Parameter Model	116
Table 4.5: Comparison of Predicted and Measured Nitrogen Values Using Distributed Parameter Model	116
Table 4.6: Comparison of Reaction Rate Parameters	117
