

ACKNOWLEDGMENT

First of all, I would like to express my deepest appreciation and gratitude to my advisor, Dr. V.Rajasekaran, Professor and Head, Department of Electrical and Electronics Engineering, PSNA College of Engineering and Technology (PSNACET) for his patience, guidance, support and providing me with an excellent atmosphere for doing research. He has provided me with great insight and feedback, every step of the way and as a result of that I have learned and grown personally and professionally. I could not have started and finished this thesis without his endless interest, concern, advice, and assistance.

Besides my advisor, I would like to thank the rest of my doctoral committee members Dr. K.Thiyagarajah, Principal KSR CET, Tiruchengodu and Dr. M.Sudhakaran, Associate Professor, PEC, Pondicherry for their interests, suggestions and kind support for this work. I extend my sincere thanks to the management of PSNACET, for offering all facilities to carry out the research work.

From the bottom of my heart, I'm most grateful to my parents, my wife, my son Rahul, my sister, my brother-in-law, my friends and my parents-in-law for their unwavering support, constant inspiration, and extraordinary understanding throughout my graduate studies. I extend a heartfelt thanks to my friends, research scholars, other teaching faculty and non-teaching staff members of PSNA CET for their continuous support and cooperation during my research work.

ARUL PRASANNA M
