ACKNOWLEDGEMENTS

It has been my privilege to work under the supervision of Dr. Karuna Ahmad. I feel specially indebted to her for her valuable guidance and constant encouragement in the completion of this work. She has been a source of great inspiration to me.

I thank Prof. Tapas Majumdar, Prof. Suresh Chandra Ghosh and Dr. Sushila Singhal for their valuable suggestions which they made during the course of this study. I also thank Prof. M. Toha for his most valuable and concrete suggestions.

My thanks are also due to Zakir Husain Centre for Educational Studies and University Grants Commission for awarding me a fellowship for conducting this study.

Finally, I thank my parents, wife and children for their never-failing patience and support. They have made tremendous sacrifice during my long absence from home in the course of this study. Perhaps, this made the study more meaningful.
