ACKNOWLEDGEMENTS

The Author wishes to express his gratitude and sincere thanks to his guide,
Dr. M.V. Modak, Nowrosjee Wadia College, Poona 1
(contributory Professor, University of Poona) for suggesting and guiding the project and encouraging through valuable discussions throughout.

The author is very much grateful to Prof. M.R. Bhiday, then the Head of University Department of Physics, Poona University for encouraging the research and providing necessary facilities from the University Department of Physics. The author is also thankful to the University authoritites for recognizing the Electro-Acoustics Research Laboratory in Nowrosjee Wadia College, Poona, for Post-graduate research. The author wishes to express his gratitude to Prof. R.G. Tukwale (now Vice Chancellor of The University of Poona) and Prof. B.V. Thosar for appreciating the work carried out in the Electro-Acoustics Research Laboratory.

The author is thankful to the Principal, and Head of the Physics Department, Nowrosjee Wadia College, Poona 1 for providing the necessary research facilities. He is greatly indebted to
The State Board for Literature and Culture, Bombay, Sangeet Natak Akademy, New Delhi, for financial assistance towards research schemes undertaken.

Thanks are due to Dr. R.N. Karekar and Prof. B.D. Ketkar for their help and interest rendered in the work.

The author is thankful to S.H. Mehandale, Dr. V.S. Pansare and Prof. S.R. Chandorkar (of Cusrow Wadia Institute of Technology, Poona 1) for their participation in experiments on tuning of musical scale.

The author is thankful to the commissioner, H.E. & C.E., Madras Director of Archeological Survey of India, for granting permission to record the sound emitted by musical pillars and taking photographs for the purpose of research.

The author wishes to express his sincere thanks to the Executive Officers of the Devastanams for extending cooperation and facilities during our visit to the temples in South India.

The author wishes to express his thanks to Mr. V.V. Desa, his colleagues for assistance and encouragement from time to time.

The author is also thankful to the singers Mrs. Kalindi Keskar, Miss Kanade and Miss Gangal, also
the well known harmonium player, Shri Appa Jalgaonkar for their co-operation in conducting various experiments.

The author is particularly thankful to the Librarian, Deccan College, Poona for allowing the use of number of books and journals from the phonetics departments.

The author is indebted to the following persons:

1. Mr. G.H. Bagban for typing the thesis.
2. Mr. Nigunda Deshpande for drawing and Ammonia printing.
3. Many other colleagues and laboratory attendants in the Physics Department of N. Radia College, Poona for their help in various ways.

(Mr. S. Parameswaram)
