Dedicated to

My

Late Grandfather & Late Grandmother

Shri D.P. Mishra & Smt. Mohini Devi Mishra
ACKNOWLEDGEMENT

Completion of a research work brings a soothing feeling of intense satisfaction, coupled with a deep sense of gratitude for those who, in a quite selfless manner, helped to bring an end to this task.

To begin with, I deem it a matter of great pleasure in expressing my profound indebtedness to my supervisor, Prof. K.P. Dwivedi, Ph.D., F.E.S.I., Head, Department of Zoology, C.M.D. Post-graduate College, Bilaspur for his ingrooming into the author's mind, the concept of present study. It was under his able supervision that the entire work was largely carried out in the Zoology Department of the College. Prof. Dwivedi took keen interest in the work, extended his continuous guidance, pertinent criticisms and valuable suggestions during the progress of the work. He also placed his personal library at the disposal of the author for which the latter is deeply indebted to him. The author also wishes to record his personal gratitude to Mrs. Geeta Dwivedi for extending her affectionate cooperation during the correction of the manuscript.

The author is grateful to Dr. P.C. Jain, Principal, C.M.D. Post-graduate College, Bilaspur (C.G.) for providing laboratory and library facilities for the present work. The author is also grateful to the Principal, Bhart Mata Hr. Sec. School, Bilaspur without whose kind permission it would not have been possible to face the task of doing this piece of work.

The author's gratefulness is also due to the Director, Zoological Survey of India, Kolkata who extended his favour in identifying many
Orthopteran species; Officer-in-Charge, C.F.R.I. Bilaspur, who allowed me to use his laboratory for calorific estimation of experimental insects; Prof. S.J. Chipde, Head, Botany Deptt., C.M.D. Post-graduate College Bilaspur and Shri P.D. Srivastava, Visiting Faculty, Deptt. of Forestry, Guru Ghasidas University, Bilaspur; both of whom helped me to identify the entire flora of the study site; Dr. T.L. Patel, Head, Zoology Deptt., Gramya Bharti Vidyapeeth, Hardibazar (Korba) for on-spot identification of most of the Orthopteran kinds of the study site; Dr. Devesh Pandey, Indira Gandhi Agriculture College, Bilaspur for providing me the climatic data of the Bilaspur city and the District.

The author also feels it suitable to appreciate the keen interest and pains taken by Prof. A.M. Agrawal, Deptt. of Botany, C.M.D. Post-graduate College, Bilaspur for giving perfect shape to the thesis on the computer of M/s Anurag Graphics.

Last but not the least, my uncle, Dr. A.K. Mishra, Prof. & Head, Deptt. of Physics, C.M.D. Post-graduate College, Bilaspur motivated me to this academic field and I really fail to find adequate words to express my deep regards to him and pray God for his well beings in every walk of life.

In the end, the present study is an outcome of the blessings of my revered parents - Smt. Sarojini and Shri Vinod Mishra; silent encouragements from wife Poonam; affectionate help from the sisters and brothers-in-law, to all of whom I express my heartfelt feelings.
