ACKNOWLEDGEMENT

Before I acknowledge all our guiding personalities behind this project work, I thank god almighty for his magnanimity in steering me to execute this thesis work.

It is with a profound sense of gratitude, I owe my first and foremost indebtedness to my supervisor Prof. Y. Padmanabha Reddy, M.Pharm., Ph.D, F.I.C., Principal, Raghavendra Institute of Pharmaceutical Education and Research, Anantapur for his persistent creative encouragement and valuable guidance thought the course of this thesis.

I extend my thanks to Prof. J. Ravindra Reddy, M.Pharm., Ph.D, Correspondent of Raghavendra Institute of Pharmaceutical Education and Research, Anantapur, for his vital cooperation in the successful completion of this thesis.

I would like to thank Dr. P. Ramalingam, Dr. C. Sowmya and Mr. C. Suryaprakash Reddy, Smt. M. Geethavani of Raghavendra Institute of Pharmaceutical Education and Research, Anantapur for their valuable suggestions and support.

Words fall insufficient to express the feeling towards my friends, colleagues and seniors without whose support, this thesis could not have completed successfully.

Last but not least, I am grateful to my family members without their best wishes, help, emotional support and encouragement; this work would not have been possible. It will be impossible to fulfill the eternal debt, which I owe them.

(S. JANARDHAN)
