

CONTENTS

LIST OF FIGURES	i
LIST OF TABLES	iv
ABSTRACT	v
Chapter 1 INTRODUCTION	1
1.1 Integration of Design and Manufacturing	2
1.2 Feature based approach for CAD/CAM integration	4
1.3 Hardware and Software Requirement	5
1.4 An Overview of the Developed System	6
1.5 Organization of the Thesis	7
Chapter 2 LITERATURE REVIEW	8
2.1 Review of Research on Geometric Data Extraction	9
2.2 Review of Research on Feature Recognition	10
2.3 Critical Observations	14
2.4 Objective and Scope of the Study	15
Chapter 3 GEOMETRIC DATA EXTRACTION FROM STEP FILES (GDE)	16
3.1 Hierarchy of Geometrical Strings	17
3.2 Geometric Data Extraction from STEP files	18
3.2.1. Edge curve construction	20
3.2.2. Finding the centers of circles of a cylinder	20
3.2.3. Finding the radius of circle of a cylinder	21
3.2.4. Finding the surface and radius	21
3.2.5. Recognition of axis coordinates of a cylinder	21

Chapter 4 FEATURE RECOGNITION	24
4.1 CYLINDRICAL FEATURE RECOGNITION (CFR)	25
4.1.1 Flow chart for cylindrical feature recognition	25
4.1.2 Recognition of a cylinder	27
4.1.3 Addition of a cylinder	27
4.1.4 Subtraction of a cylinder (cylindrical hole)	28
4.1.5 Recognition of online cylindrical features	29
4.1.6 Recognition of offline cylindrical features	29
4.1.7 Recognition of cylindrical hole - Through or Blind	30
4.1.8 Recognition of cylindrical hole inclined to external cylinder axis	31
4.1.9 Recognition of conical features	31
4.1.10 Recognition of conical hole features	32
4.2 CURVATURE FEATURE RECOGNITION (CUFR)	33
4.2.1 Flowchart for curvature feature recognition	33
4.2.2 Recognition of concave/convex external toroidal features	35
4.2.3 Recognition of concave/convex internal toroidal features	36
4.2.4 Recognition of spherical features	36
4.3 CYLINDRICAL CROSS HOLE FEATURE RECOGNITION (CHFR)	37
4.3.1 Flow chart for cylindrical cross hole feature recognition	37
4.3.2 Recognition of a cylindrical cross hole passing through axis line	40
4.3.3 Recognition of a cylindrical cross hole offset from axis line	41
4.3.4 Recognition of a cylindrical cross hole inclined to axis line	41
4.3.5 Recognition of a cylindrical cross hole - Through or Blind feature	42

Chapter 5 SPECIAL FEATURE RECOGNITION (SFR)	43
5.1 Flow chart for keyway feature	44
5.2 Recognition of slot features	45
5.3 Recognition of keyway features	45
5.4 Recognition of elliptical features	46
5.5 Recognition of knuckle thread	47
Chapter 6 RESULTS AND DISCUSSIONS	49
6.1 JAVA program execution	50
6.2 Case study – 1	56
6.2.1 Recognition of a cylindrical feature	59
6.2.2 Recognition of addition of a cylindrical feature	60
6.2.3 Recognition of subtraction of cylindrical hole feature	61
6.2.4 Recognition of subtraction of a conical hole feature	61
6.3 Case study – 2	62
6.3.1 Recognition of circle centers for each feature	63
6.3.2 Recognition of toroidal feature	66
6.4 Case study – 3	67
6.4.1 Recognition of cylindrical hole - online/offline	67
6.4.2 Recognition of blind cross hole and inclination	68
Chapter 7 CONCLUSIONS AND FUTURE SCOPE OF WORK	71
7.1 Conclusions	72
7.2 Scope for Future Research	73

References		74
Appendix - A	Algorithms for developed program	82
Appendix - B	Test Component Drawing Files	92
Appendix - C	Results for test components	98
