

LIST OF TABLES

TABLE NO.	TITLE	PAGE NO.
1.1	Some of the most important secondary metabolites with biological activities produced by <i>Streptomyces</i> sp. (Lam 2006)	20
2.1	Secondary metabolites from marine <i>Streptomyces</i> sp. and its biological activities	42
3.1	Different types of medium and its composition	58
3.2	Reagents and medium used for Gram's staining	64
3.3	Reagents and medium used for Endospore Staining	66
3.4	Reagents and medium used for Indole Production	67
3.5	Reagents and medium used for MR-VP test	68
3.6	Reagents and medium used for Citrate Utilization	69
3.7	Reagents and medium used for Urease Production	70
3.8	Reagents and medium used for Melanin production	70
3.9	Reagents and medium used for Nitrate reduction test	72

TABLE NO.	TITLE	PAGE NO.
3.10	Reagents and medium used for Xanthine/Hypoxanthine/esculin/arbutin hydrolysis	73
3.11	Reagents and medium used for Gelatin/Casein/Cellulose/Starch/ Tween 20/Tween 80 hydrolysis	73
3.12	Reagents and medium used for Chitin/ Pectin hydrolysis	74
4.1	Isolation of marine <i>actinomycetes</i> from Manora Fort, Thanjavur, Tamilnadu, India	93
4.2	Consolidation of isolation of marine <i>actinomycetes</i> from Manora Fort, Thanjavur, Tamilnadu, India	94
4.3	Primary screening of marine <i>actinomycetes</i> isolates against bacterial pathogens	96
4.4	Primary screening of marine <i>actinomycetes</i> isolates against human fungal pathogens	99
4.5	Morphological characteristics of marine <i>actinomycetes</i> isolated from Manora Fort, Thanjavur, India	99
4.6	Light microscopic observation of marine <i>actinomycetes</i> isolates	100
4.7	Physiological and Biochemical tests of marine isolate SSD08	105
4.8	Central composite design of Actual and Predicted values	115

TABLE NO.	TITLE	PAGE NO.
4.9	ANOVA for the fitted quadratic polynomial model for level optimization of secondary metabolites production using <i>S. cirratus</i> SRP11 as per CCRD	117
4.10	ANOVA for Response Surface Quadratic Model	118
4.11	Sequential Model Sum of Squares table	118
4.12	Model Summary Statistics	119
4.13	Secondary metabolites production of <i>S. cirratus</i> SRP11 in different liquid media	126
4.14	Secondary metabolites production of <i>S. cirratus</i> SRP11 in different solid media	127
4.15	Growth and secondary metabolites production of <i>S. cirratus</i> SRP11 in MYEB medium	128
4.16	Extraction of crude secondary metabolites using solvents	140
4.17	Identification of bioactive secondary metabolites of marine <i>S. cirratus</i> SRP11	143
4.18	LDH leakage in HT-29 cells after treatment with crude chloroform extract of <i>S. cirratus</i> SRP11	155
4.19	LDH leakage in HeLa cells after treatment with crude chloroform extract of <i>S. cirratus</i> SRP11	155
4.20	Caspase-3 activity in HT-29 cells after treatment with crude chloroform extract of <i>S. cirratus</i> SRP11	156

TABLE NO.	TITLE	PAGE NO.
4.21	Caspase-3 activity in HeLa cells after treatment with crude chloroform extract of <i>S. cirratus</i> SRP11	157
4.22	FRAP reduction activity of <i>S. cirratus</i> SRP11 culture filtrate, chloroform extract of culture filtrate and ethyl acetate extract of culture filtrate	162
