ACKNOWLEDGEMENTS

I would like to express deep sense of gratitude and heart-felt thanks to my Research Director, Dr. V. Lakshmi Kalpana for her continuous support and encouragement in my pursuit to complete the work.

I am extremely happy to express my sincere gratitude Dr. G. Sudhakar, Head of the Department, Member, Doctoral Committee for his most precious help to me in overcoming all types of impediments and so many obstacles.

I also thank Prof. G. Paddaiah, Dr. N.Lakshmi for their continuous support and help in every stage work.

Words fall short to express my deep sense of gratitude to my teacher Dr. M. Ramesh, for his valuable suggestions and his clinical expertise have all contributed greatly in my research work.

I would like express my thanks to Professors, Assistant professors, teaching associates and research scholars, Department of Human Genetics, Andhra University, Visakhapatnam.

I wish to express my warmest thanks to patients, especially to the children for their cooperation and donation of their samples, without which this work was not possible.

Indeed the words at my command are not adequate either in the form or spirit to convey the depth of my feelings of gratitude to my parents, sisters and all other family members for their constant inspiration, affection and everlasting support.

About all, words cannot express my heartfelt thanks to the lord showering his blessings on me.

I sincerely thank all the respondents for participating in the study.

S. Krishna Subha
