ACKNOWLEDGEMENTS

I feel extremely privileged to express my veneration for my supervisor Prof. N. Sarada Mani, Professor, Dept. of Botany, Andhra University, Visakhapatnam. Her whole-hearted co-operation, support and encouragement rendered throughout made this thesis possible. Working under her gave me a true sense of freedom, has broadened my scientific outlook and inculcated a spirit of positive attitude in me. Without her unflinching support and active guidance, the research work presented in the thesis would not have been possible.

I express heartfelt gratitude to my co-supervisor Dr. D. Balakrishna, Senior Scientist, Biotechnology, Directorate of Sorghum Research (DSR), Rajendranagar, Hyderabad, INDIA for guiding me in all the biotechnological activities throughout the research work. I am extremely lucky to prosecute this investigation under his exceptional guidance. His suggestions while planning and executing the experiments have been helpful in bringing a sense of direction to the whole investigation and I would also like to thank him profusely for his kind help and support while writing the thesis.

I express my profound sense of gratitude to Dr. N. Baskara reddy for bestowed his blessings, inestimable suggestions and constant encouragement during my research. His spirit of dedication and attitude is a source of inspiration to me all the way through life.

I am equally thankful to D. Vijaya Babu for his constant blessings from my childhood and his words about education before he passed away. His spirit of dedication for education and his unquenched desire of study in Andhra University made me to join in this university and enabled to reach this stage.

I am highly thankful to Dr. J.V. Patil, Director, Directorate of Sorghum Research (DSR), Rajendranagar, Hyderabad, INDIA for permitting me to conduct the research study at the organization. His support, future insight and thoughtful arrangements have made fruitful completion of the study.

I express my gratitude to Dr. P.G. Padmaja, Senior Scientist, Entomology and Dr. G. Shyam Prasad, Principal Scientist, Entomology at Directorate of Sorghum Research (DSR), Hyderabad for their help and continuous support in evaluating sorghum transgenic plant materials through insect bioassays. I would like to express thanks to Dr. B. Venkatesh Bhat, Principle Scientist, Biotechnology and Dr. R Madhusudhana, Principal Scientist, Biotechnology at Directorate of Sorghum Research (DSR), Hyderabad
for his constant encouragement, guidance and value discussion throughout completion of my research work. I am equally thankful to Dr. K.B.R.S. Visarada, Principle Scientist, Biotechnology at Directorate of Sorghum Research (DSR), Hyderabad for her kind help with practical matters.

I would like to sincerely thank Dr. O. Anil Kumar, Professor and Head, Department of Botany, Andhra University for the active support and help provided during the entire study. I would also like to place on record my gratitude to Chairman, Board of Studies and all the faculty members of Department of Botany, Andhra University for their encouragement and support.

I am highly thankful to Prof. Y. Venkateshwara Rao, Assistant Principal, Andhra University for his help in administrative and technical support. I am also thankful to Dr. P.K. Ratan Kumar and Dr. G. Mohan Narasimha Rao, Associate Professors, Department of Botany, Andhra University for their co-operation.

The support received from Mr. Joseph, Technical Assistant, Biotechnology, Directorate of Sorghum Research (DSR), Hyderabad in carrying out the field work related to the research study. I thank my colleagues and friends Vinodh, Madhu, Nageswar Rao, Vishnu, Bangaru Naidu, Priya, Rama, Pushpa, Swapna, Rakesh, Jaikishan, Uttam and Sharmila for their support in finishing this research work.

The blessings received throughout my life from my father Sri. Indukuri Satyanarayana Raju, mother Smt. Jaya, in-laws Sri. D. Narayana Murthy and Smt. Swarna Kumari have been immense. The solicitude and encouragement I received from them has been a source of great strength to me. For some relationships words are not sufficient express our feelings especially that was true in my better half Dr. D.V.N. Chakravarthi, Associate Scientist, ITC, Bangalore. I would also like to thank my family members Smt. D.V.R. Sujatha, P.P. Naidu, Jyosthna Roy and Srikar Sai Tej for motivating me towards achieving my objectives.

Last but not the least; I thank Almighty for all his blessings in successfully completing the present research study in a smooth and satisfactory manner.
