ACKNOWLEDGEMENTS

Words are not merely enough to show my thanks and gratitude towards my mentor Dr Pramod C. Rath, for his constant guidance and invaluable suggestion throughout tenure of my Ph.D. Thanks, you so much Sir, for your valuable discussions, concern and encouragement. I always admire his logical way of thinking, valuable criticisms and his great efforts to make a complex situation a simpler one.

I would like to thank Dr. Donald J. Tindall at Dept. Of Urology Research, Mayo Clinic, Minnesota, USA for the kind gift of pCMV-PTEN plasmid, Prof. Maricilda P. de Mello for the kind gift of pET-hSRY plasmid at Centro de Biologia Molecular e Engenharia Genetica, Universidade Estadual de Campinas, Brasil and Dr. Rafael Pulido at Centro de Investigación Príncipe Felipe Avda, Spain for the providing me PTEN monoclonal antibody (425A).

I would like to acknowledge the past and present Deans of the School of Life Sciences, Prof Alok Bhattacharya, Prof R.M.K Bamezai, Prof P. K. Yadava, Prof R.K. Kale and Prof R. Madhubala for providing me the infrastructure of the School and their constant help during my Ph.D. work. I gratefully acknowledge Dr. Shweta Saran and Prof S. K. Goswami for extending their laboratory facilities whenever required. I would also like to acknowledge Prof Alok Bhattacharya for his scientific inputs to my project, Dr S. Chakraborty, Dr. Ashis K Nandi and Prof. N.B. Sarin for their kind help.

I would like to thank Chotelal Ji and Ramkripal Ji for their kind help in the laboratory. I specially thank Meenu mam, Mangeram Ji, Ganguli Ji, Panwar Ji, all the CIF and office staffs for their constant support and assistance in various ways.

I would also like to acknowledge the Council of Scientific and Industrial Research (CSIR) for providing me the Junior and Senior Research Fellowships. Financial assistance from the “University of Potential for Excellence” (UPOE) grant of the U.G.C., Govt. of India to our laboratory is gratefully acknowledged.
I am greatly indebted to all my lab mates Krishna Prakash, Ritumala, Ankush, Jyothi, Deepak, Bhasker, Rajkumar, Manish, Sandeep, Diwakar, Ritu, Nishika, Anima, Jitendra and Manasa for providing me the harmonious atmosphere to work in the lab and helping me to plan and execute most of my experiments.

It is my great privilege to be a part of School of Life Sciences, where students from multidisciplinary fields of Biology interact and share their experience to further enhance scientific skills.

Special thanks to Jyothi, Babita, Anita, Rekha, Manjusha, Sarika, Abani, Anuradha, Sivesh, Anupam, Sikha, Jayasmita for being always there whenever I need them and believing in me. Help and support from Pinaki, Chander, Madhu, Hemant, Gitanjali, Siteshu, Hemlata, Ishani, Ratnakaran, Debdenu, Juneed, Trivhuban, Manoj, Archita, Swati, Punam, Kuldeep, Raghav, Ruchi, Sonal, Sitaram, Reshma and many more are gratefully acknowledged.

Last but not the least, I am grateful for the inexhaustible patience, blessing, encouragement, guidance, love, care, affection, motivation, invaluable emotional support extended by my parents, brothers and my family for being the source of my strength all through.

Rasmi R Mishra
