Acknowledgements

For my successful research work, I deeply first and foremost pay my tribute to the almighty ‘GOD’ with the flowers of my veneration and devotion, for his graceful blessings in every step without which this humble expression of my effort would have not seen the light of the day.

It is also my privilege to express my profound sense of gratitude to the president of the Vidyapith Prof. Chitra Purohit, Vice-Chancellor of the University Prof. Aditya Shastri, for providing a state of art facility of research at this University and for developing this institution into a world class University by dint of his academic farsightedness.

Conducting research in a multidisciplinary area such as this, is not an easy task. It required support of so many people. Sentiments of my heart when molded into words can seldom convey what I truly wish to express to each of them. I begin with an humble expression of my profound gratitude to my supervisor Prof. D. Kishore sir.

I would like to express my deepest gratitude to Dr. Jaya Dwivedi, (Head of the department) for her valuable discussion and perpetual inspiration, motivation, along with this I am highly indebted to her for providing the necessary lab facilities without which I would have not achieved my aim.

I thanks to all my respected teachers, Prof Sudha Shastri, Dr. Bhawani Singh, Dr. Dinesh Kumar, Mr. Rajendra Kumar, Dr. Sudhanshu Sharma, Dr. Manish Shrivastava, Dr. Sudesh Kumar, Dr. Kavita Poonia, Dr. Sonika Jain, Ms. Parul Khurana and Ms. Sheenam Thathai, Sumitra Nain for their kindness and blessings which they bestowed upon me leading me through a long and thorny path to a dip into an ocean of knowledge. I am deeply grateful to all the other staff members of Department of Chemistry, Banasthali University for their valuable support.
In exact sciences like chemistry, laboratory facilities are indispensable. I appreciate the help rendered to me by the non-teaching staff of the department by Mr. K.L. Lunia, Mr. Vishnu Sharma, Dr. Birbal Luniwal, Mr. Vinod Sharma, Mr. Rajesh Sharma and Mr. Mool Singh for their generous help, goodwill and cooperation which they had extended in making the laboratory facility handy to me during the course of this work and to the lab attendants (Mr. L. D. Swami, Mr. Ramdhan, Mr. Sunil, Mr. Rajesh and Mr. Mukesh) for providing their help in all phases of laboratory work.

My sincere thanks are due to my seniors Dr. Pragati Yadav di, Dr. Aarti di, Dr. Priyanka Chaudhary di, Dr. Anshu di, Dr. Meenaksi Sharma, Vandana Sharma, and Vaishali di, for the inspiration, encouragement and unforgettable support which they provided to me during this work.

No words would be befitting enough to express my deep sense of appreciation to my friends Ms. Navjeet Kaur, and Ms. Priyanka Jain, Neha Garg, Shivani, Prachi, Soniya, Kriti, Aashu, Aastha Pareek for their support during this work.

I convey my sincerest regards to my jiji Dr. Suman Gaur (hostel warden) for her care, love and affection and for providing a moral support during the course of this work.

Most importantly, I would like to thank my Father (Shri Suchint Sharma) and Mother (Smt Sushila Sharma) for their constant support and encouragement. My mother is the one who sincerely raised me with her care and love. This would have not been possible without the support of my family. Their undying love, support and motivation has allowed me to reach to this height of glory.

Words would fail to express what I owe to Garima Sharma, Vandana Sharma and Mayank Sharma (my Sisters and brother), Dev Goswami and Navneet Kumar Yadav for their affection, support, care, inspiration and constant encouragement to pursue me for higher studies.
“True friends are like Diamonds precious but rare, False friends are like Autumn leaves found everywhere”.

Best friends are hard to find, but I have been fortunate enough to get someone like “Sarita”. I cherished the company with her. She made my time memorable and enjoyable, without her loving support, this study would have been never reached to an early consummation.

Sincere thanks to my dearest sis “Manju diii” who gave me support, selfless help and reassurance in different ways.

I take this opportunity to express my heartiest thanks to all research scholars of chemistry for their co-operations and moral support during this course of this work.

I am very much indebted to the Director, SAIF, (Sophisticated Analytical Instrumentation Facility) Punjab University, Chandigarh for providing the analytical and spectral data of the compounds.

Lastly, I nod my head before all my teachers for carving my sandy life with their indelible footprints.

Banasthali Vidyapith (Pratima Sharma)
