Acknowledgements

I shall ever remain thankfully indebted to all those learned souls, my present and former teachers, known and unknown hands who directly or indirectly motivated me to achieve my goal and enlightened me with the touch of their knowledge and constant encouragement. This is an extremely significant and joyous opportunity bestowed upon me by the God, to think about and thank all those persons. At the outset of this epistle, I consider myself fortunate and greatly privileged to have worked under the esteemed supervision and kind guidance of Dr. Deepa Sinha, Associate Professor, Department of Mathematics, South Asian University, New Delhi (Former Associate Professor, Centre for Mathematical Sciences, Banasthali University, Rajasthan) and Dr. Divya Agarwal, Assistant Professor, Department of Applied Sciences and Humanities, itm University, Haryana. I express my sincere and deepest feelings of gratitude originating from the innermost core of my heart for their benevolent guidance, meticulous supervision, whole hearted encouragement, critical appreciation in execution of my work and for all the trust they had in my ability.

With stupendous ecstasy and profundity of complacency, I pronounce utmost of gratitude to Dr. Phool Singh, Dr. N.S. Tomer, Dr. Gaurav Gupta, Ranjan Goyal, Deepika, Manisha, Preeti and Purnima for their relentless efforts, sagacious guidance, congenial discussion and salutary advice.

Several institutions gave me the conditions I needed to pursue this research. Among these, I am especially grateful to the Department of Applied Sciences and Humanities, itm university for providing me support. My inexplicable gratitude goes to Gaurav Sharma, Assistant Librarian, itm University for extending all the necessary
help and providing facilities during the course of study.

Where the emotions are involved, words cease to mean. My vocabulary fails to accentuate my profound reverence and sincere regards to my parents and parents-in-laws for their continuous support, wishes and prayers. Their ceaseless inspiration, moral and spiritual support, profound love and unending encouragement was my driving force. I fall short of words to express my sincere thanks to my sister and brother for their motivation, warm company, active help, unconditional love and care that relaxed me during the painstaking days of my study.

Last, but certainly not the least, I must acknowledge with tremendous and deep thanks to my husband, Ashish, without whom I would not have had the courage to embark on this journey. I truly appreciate and thank him for always believing in me and encouraging me to follow my dreams. He has been by my side throughout this research work, even when I was irritable and depressed. There are no words that can express my gratitude and appreciation for all he has done and been for me.

Banasthali
