II. THE GENESIS AND GROWTH OF THE INTERNATIONAL
PATENT SYSTEM

Introduction

Early History

Some Aspects of the Evolution of Patent Law

- The Shift in the Rationale of Patents
  (a) Exploitation of Patents within the National Territory
  (b) Protection of Inventors and Introducers
  (c) Absolute and Relative Novelty
  (d) Exclusion of Certain Products
  (e) The Scope of Protection afforded by Patents for Chemo-Pharmaceutical Production Processes

- Nineteenth Century Conflict on Patents

Evolution of Multilateral Mechanism for Patent Protection

- Need for an International Regime
- Establishment of Paris Convention
- Revisional Conferences - Adoption of Successive Texts
- The Concept of a "Union" under the Paris Convention

Establishment of other International Treaties of World-wide Application

- The Convention Establishing the World Intellectual Property Organisation
- The Intellectual Patent Documentation Centre (INPADOC)
- The Patent Co-operation Treaty (PCT)

Summation
III. NORMS AND STANDARDS OF PATENT PROTECTION UNDER THE PARIS CONVENTION

Introduction 123

Minimum International Standards Provided under the Paris Convention 124

- National Treatment or Equality of Treatment 125
- The Right of Priority 136
- Independence of Patents 148
- Patentability of Inventions 156
- Duration of the Patent Protection 167
- Procedures for Checking the Patentability of Inventions 175
- Period of Grace for the Payment of Fees 181

Summation 184

IV. THE PATENT SYSTEM AND DEVELOPING COUNTRIES: A CRITIQUE OF THE PARIS CONVENTION 190-268

Introduction 190

Some Striking Features of Patents as Indicators of Differences in Developing and Developed Countries 191

Effects of Patents on the Economies of Developing Countries 193

Developing Countries' Initiatives for Revision of the Patent System 200

WIPO: The Ongoing Revision of the Paris Convention 212

- Preparatory Work and Negotiating Procedure 212
- The "Basic Proposals" for Revision Submitted to the Diplomatic Conference 217

(a) Article 1 - Inventors' Certificates 217

(b) Article 5A - Importation of Articles; Abuses; Failure to work; Exploitation in the Public Interest 218
(c) **Article 5 quater** - Importation of Products Manufactured by a Process Patented in the Importing Country 222

(d) **Articles A and B** - Preferential Treatment for Nationals of Developing Countries

- (i) Differential Treatment in Respect of Fees 223
- (ii) Differential Treatment in Respect of the Term of Right of Priority 225

(e) **Article 12 bis** - Furnishing of Information 226

(f) **Articles 12 ter and 13(2)(a)(xiv)** - Development of Developing Countries 228

(g) **Administrative and Final Provisions** 230

- (i) **Article 20** - Signature; Ratification and Accession 231
- (ii) **Article 21** - Entry into Force 231
- (iii) **Article 23** - Closing of Earlier Acts 234
- (iv) **Article 24** - Provisions Relating to Territories of Countries members of the Union 236
- (v) **Article 26** - Denunciation of the Convention 237
- (vi) **Article 27** - Application of the New Act 238
- (vii) **Article 28** - Settlement of Disputes 239

- Various Sessions of the Diplomatic Conference on the Revision of the Paris Convention 241
- Diplomatic Conference on Patent Law Treaty (PLT) or the Harmonisation Treaty 251

**Summation** 263

**V. URUGUAY ROUND OF MULTILATERAL TRADE NEGOTIATIONS:** 269-348

- **Applicability of GATT Standards to IPRs**
  - **Introduction** 269
  - **GATT Standards** 270
  - Most Favoured Nation Treatment 275
VI. NATIONAL TREATMENT 276

- Reciprocity 277

- Special and Differential Treatment 279

The United States Offensive 280

Mandate for Negotiations 294

Issue of Right Forum: GATT or WIPO 299

The Mid-term Review of Uruguay Round 301

The International Trade Law Standards of GATT and the Question of their Applicability to Patents 305

- Proposals of Developed Countries 305

- Implications for Developing Countries 319

- Provisions in the Final Act Concerning TRIPS 330

Summation 343

VI. SUBJECT MATTER OF PATENT PROTECTION 349-454

Introduction 349

Pre-TRIPS Text Position 354

- International Patents Regime of Paris Convention 354

- Definition of Subject Matter 354

- Exclusion of Inventions from Patentability 355

  (a) General Category 355

  (b) Specific Sectors/Products 356

- Countries Qualifying/Limiting the Effects of Patents in Pharmaceuticals 364

- Rationale behind Exclusions 366

- Product and Process Patents 370

- Demands of the Developed Countries in GATT Multilateral Trade Negotiations 373
TRIPS Text Position

- Emphasis on Product Patents Regime 375
  (a) Transitional Arrangements 376
  (b) Burden of Proof - Its Reversal 381

- Covering New Technology for Patentability 386
  (a) Issue of Biotechnological Inventions and the WIPO 388
  (b) Patent Protection for Micro-organisms 392
  (c) Protection of Plant Varieties 405
  (d) Patentability of Animal Varieties 415
  (e) Protection of Computer Software 427

- Implications for Developing Countries 434

Summation 450

VII. WORKING OF PATENTS AND SAFEGUARDS AGAINST THEIR NON-WORKING 455-556

Introduction 455

Some Considerations for Non-Working of Patents 457

- Profitability of Local Production 458
- Suppression of Patented Inventions 460

Pre-TRIPS Text Position 462

- Meaning of the Concept of "Working" 462
- Importation and Working 466
- Obligation of Patent Holder to Work 475
- Remedies Against Non-Working 481

  (a) Compulsory Licences 482
    (i) Meaning 482
    (ii) Rationale 483
    (iii) Compulsory Licensing under the Paris Convention 485
(iv) Ineffectiveness of the Provisions 491
(v) Proposals for Revision at the WIPO Diplomatic Conferences 497
(vi) Statutory Provisions on Non-voluntary Licences 517

(b) Licences of Right and Licences d' Office 520
(c) Other Remedial Measures 526
   (i) Automatic Lapse 526
   (ii) Revocation 527
   (iii) Use and Expropriation by the State 534

TRIPS Text Position 536
— Emphasis on "Right to Import" as a "Right of the Patentee" 536
— Negation of the Obligations of the Patentee to Work 539
— Trade Based Approach: Virtual Elimination of Compulsory Licences for Failure to Work 542
— Other Implications Concerning Forfeiture/Revocation and Working of Patents 549

Summation 552

VIII. INDIA'S PATENT REGIME — AN EVALUATION IN THE CONTEXT OF GATT TRIPS TEXT 557-680

Introduction 557
Historical Perspective of India's Patent Regime 559
Post-1970 Patent Regime of India 572
— Objective of the Law 573
— Definition of National Interest 574
— Non-Patentable Inventions 575
— Duration of the Patent Grant 577
- Working of the Patent 578
  (a) Compulsory Licences 579
  (b) Licences of Right 581
  (c) Revocation of Patents for Non-Working 584
- Government's Rights 584
  (a) Use of Inventions for Purposes of 585
    Government
  (b) Acquisition of Invention by Government 587
  (c) Government use of Inventions Relevant 589
to Defence
- Equal Rights 590
- International Arrangements 590
- Powers of Controller of Patents 591
- Procedure for the Grant of Patents 593
Operation of the Patent Law in India 600
- Basic Data on Patents 600
- Role of Know-how 620
- Advantages Accrued-Types 623
- Growth of Pharmaceutical Industry 625
- Increase in Pesticide Production 636
- Export of Technology from India 640
- Atomic Energy Research 640
- Encouragement of Process of Technology 642
  Transfer
- Inflow of Patent Information 643
IPA vis-a-vis TRIPS Text 644
Possible Impact of Change

- Automatic Membership of the Patent Convention 645
- Amendment of the IPA - the Only Choice 655
- Reversal of the Very Substance and Framework of the IPA 656
- Change from Process to Product Patent - A Greater Stake for India's Industrial Development 658
- A Set Back to India's Export Potential 659
- Patentability of New Drugs, Pesticides and Chemicals - A Complete Stop of Research Activity 659
- Long Duration of Process Patents - Easy Access to Patents 660
- New Patents and Sui generis System - Disastrous for Indian Agriculture 661
- Elimination of Remedies Against Non-Working of Patents 669
- Acceleration of Budgets of Various Institutions 669
- Depletion of High Qualified Manpower through Brain Drain 670
- Reversal of Burden of Proof 671
- Absence of Safeguards Against Cross-Retaliation 672

Summation 673

IX. SUMMARY AND CONCLUSIONS 681-728

BIBLIOGRAPHY 729-761
