ACKNOWLEDGMENTS

My sincere thanks are due to Dr Rameshwar Singh, who not only introduced me to the fascinating field of Gerontology, but with his able guidance, apt criticism, reassuring generosity which remained a source of inspiration although the course of this work, helped to generate a sense of confidence in me and encouraged me to pursue my own thought in my own way.

It is with overlong owefulness, I wish to render my thanks to Prof. Asis Datta, Dean, School of Life Sciences, Jawaharlal Nehru University, New Delhi, for co-operation extended to me during the course of this work. I also owe my thanks to Prof. Sivatosh Mukherjee and Prof. P.C. Kesvan, former dean, for providing necessary facilities. I am also grateful to Prof. G.S. Singhal for his help in spectrofluorimetric determinations.

I am very much thankful to my colleagues D.N. Pathak, M.I. Anthony, N.M. Remala, Balram Singh for their constant help and encouragement. I would like to say that I owe a debt of gratitude to Dr Ehtesham Hasnain and Dr Hema Krishnan for their help and co-operation and to Dr P.K. Yadav for encouragement and his help in multiunit activity standardisation.

In gratitude for the task that at times appeared endless, thanks are due to Ram Lal for his assistance in experimental work, R.N. Saini for photographic work, Dipankar Sur for drawings and Basu for xeroxing.

Of the many friends who cooperated and encouraged me during the course of this work, I must express my heartiest thanks especially to S.K. Sinha, A.R. Verma, S. Frasad, M.R. Verma, O.P.

The financial assistance provided by Jawaharlal Nehru University in the form of a UGC senior research fellowship is gratefully acknowledged.

It is beyond words to express my sentiments and thankfulness to my mother and brothers for their warmth and understanding and for their contribution towards making me what I am today. But above all, I am deeply indebted to my wife, who has, on the top of everything else, helped me with perseverance and patience throughout this work — she is an everlasting source of encouragement.

DEODUTTA ROY
