List of Tables

Table 1  Involvement of different respiratory viruses in respiratory tract diseases  3
Table 2  Family- Paramyxoviridae  21
Table 3  Strains of HRSV used in the study  59
Table 4  Respiratory viruses other than HRSV used in the study  60
Table 5  Reactivity of NIV MAbs with homologous strain 955879 of HRSV in IF test  85
Table 6  Characterization of NIV MAbs  86
Table 7  Reactivity of NIV MAbs with different group A strains of HRSV in NIV IF test  90
Table 8  Reactivity of NIV MAbs with different group B strains of HRSV in NIV IF test.  91
Table 9  Reactivity of MAb N4 with other respiratory viruses  92
Table 10  Determination of suitable DAb  93
Table 11  Determination of suitable CAb  94
Table 12  Reactivity of group A strains of HRSV in NIV ELISA  94
Table 13  Reactivity of group B strains of HRSV in NIV ELISA  95
Table 14  Reactivity of other respiratory viruses in NIV ELISA  95
Table 15  Detection of purified virus (without sonication) in NIV ELISA  96
Table 16  Detection of purified virus (sonication with PBS T20) in NIV ELISA  96
Table 17  Determination of number of plaque forming units detected by NIV ELISA  97
Table 18  Comparison of NIV ELISA with ELISA without CAb  98
Table 19  Comparison of NIV IF and NIV ELISA with Chemicon IF for the detection of HRSV from NPA specimens collected from OPD  101
Table 20  Comparison of NIV IF, and NIV ELISA with Chemicon IF for the detection of HRSV from NPA specimens collected from IPD  101
Table 21  Evaluation of NIV IF test  102
Table 22  Evaluation of NIV ELISA  103
Table 23  Distribution of HRSV positivity in IPD and OPD specimens  103
Table 24  Temporal distribution of HRSV disease in IPD and OPD specimens  104
Table 25  Age distribution of HRSV disease  106
Table 26  Gender distribution of HRSV disease  106
