

LIST OF FIGURES

FIGURE NO.	TITLE	PAGE NO.
1.1	Emission Profile of Diesel	3
1.2	Statistics of Global Energy Consumption (Institute for Energy Research, 2013)	4
1.3	World's Biggest Biodiesel Producing Countries in 2013	4
1.4	Medium-Term Renewable Energy Market Report 2013 (IEA, 2013)	5
1.5	Global Wind Energy Capacity, 1996-2012 (Renewables Status Report 2013)	5
1.6	Global Solar Capacity, 1995-2012 (Renewables Status Report 2013)	6
1.7	Installed Generating Capacity in India in 2013(CEA 2013)	7
1.8	Installed Generating Capacity in India in 2014(EIA 2014)	7
1.9	Plan-wise Growth of Installed Generating Capacity in India (CEA, 2013)	8
1.10	Electricity Generated from Utilities (CEA 2013)	9
1.11	Plan-wise Electricity Generation in India	9
1.12	Installed Capacity of Grid-interactive Renewable Power (Energy Statistics 2014)	10
1.13	Plan-wise Per Capita Consumption of Electricity	11
1.14	Peak Power Deficit of Leading States During 2012-2013 (CEA)	12
1.15	Primary Energy Demand Growth from 2010-2035 (World Energy Outlook 2011)	14

FIGURE NO.	TITLE	PAGE NO.
1.16	Plan-wise Number of Villages Electrified (CEA 2013)	15
1.17	Growth of Installed Capacity of Renewable Energy in India (Ernst & Young REI Expo 2013)	22
2.1	Chemical Structure of Biodiesel	37
2.2	Structure of Some Common Fatty Acids in Vegetable oils/Animal Fats	46
3.1	Mixing of Raw Neem Oil and Distilled Water	59
3.2	Pretreatment of Neem Oil	60
3.3	Transesterification Kit	61
3.4	Biodiesel Settling Method	66
3.5	Biodiesel and Glycerol Mixture	66
3.6	Washing Process of Biodiesel	67
3.7	Biodiesel Drying Process	68
3.8	Experimental Setup for Electric Power Generation	70
3.9	Emissions Measuring Equipment	73
4.1	Voltage vs Speed Characteristics of Alternator Run Using FAEE	78
4.2	Current vs Speed Characteristics of Alternator Run Using FAEE	78
4.3	Power vs Speed Characteristics of Alternator Run Using FAEE	79
4.4	Voltage vs Speed Characteristics of Alternator Run Using FAME	80
4.5	Frequency vs Speed Characteristics of Alternator Run Using FAME	80
4.6	Power vs Speed Characteristics of Alternator Run Using FAME	81
4.7	Characteristics of Pure Diesel	82

FIGURE NO.	TITLE	PAGE NO.
4.8	25% FAME-75% Diesel Blend (B ₂₅) Characteristics	83
4.9	50% FAME-50% Diesel Blend (B ₅₀) Characteristics	84
4.10	75% FAME-25% Diesel Blend (B ₇₅) Characteristics	85
4.11	Pure FAME (B ₁₀₀) Characteristics	86
4.12	Emission Profile of Biodiesel & Diesel	87
5.1	Block Diagram of Transesterification	90
5.2	The Overall Block Diagram with Fuzzy System	92
5.3	Input Fuzzy Membership Functions	94
5.4	Output Fuzzy Membership Functions	94
5.5	Test System of Output Parameters	98
5.6	Output Parameters	100
6.1	Proposed ANN Structure	104
6.2	Configured Neural Network Architecture	107
6.3	Neural Network Training Tool	108
6.4	Training and Testing Performance of ANN	109
6.5	Regression Analysis of Output Parameters of Pure Diesel	110
6.6	Regression Analysis of Output Parameters of B ₇₅	111
6.7	Regression Analysis of Output Parameters of B ₅₀	112
6.8	Regression Analysis of Output Parameters of B ₂₅	113
6.9	Regression Analysis of Output Parameters of (B ₁₀₀) Pure Biodiesel	114
6.10	Voltage Analysis of Pure Diesel and B ₂₅	115
6.11	Frequency Analysis of Pure Diesel and B ₂₅	116
6.12	Electric Power Analysis of Pure Diesel and B ₂₅	117
A.2.1	Photographic View of Heater and Thermocouple	135
A.2.2	Photograph of Dismantled Biodiesel Production Unit	135
A.2.3	Photograph of Stirrer	136
A.2.4	Photograph of Purified Neem Oil	136
A.2.5	Photograph of Pure Biodiesel	137
