Acknowledgement

I am heartily thankful to Prof. B. S. Mohite—my guide, whose encouragement, guidance and support from the initial to the final level enabled me to develop an understanding of the subject. I salute him for his unbroken faith in experimentation and deep quest for scientific knowledge. I thank him not only for the guidance he rendered in the field of research but also for enlightening the path of my life with deep love for science. It was his support with which I could overcome my personal and scientific problems and this work could not have been completed without his inspiring guidance and constant encouragement during the course of research tenure.

Had I not been the kind of love, care and concern of my father Shri. Vishwanath Jadhav and mother Sou. Mangal Jadhav. It would have been impossible for me to reach this stage of my life. As parents, they provided me the entire essential support and encouragement not only for the period of this thesis but throughout my life.

I owe tremendous debt to Prof. K. J. Patil, Dr. R. R. Kumbhar and Dr. S. R. Sabale for their scientific guidance, valuable suggestions and encouragement during this work.

I take this opportunity to thank Honorable Vice - Chancellor Prof. N. J. Pawar for the inspiration to achieve excellence at Department of Chemistry. I am also thankful to the Prof. S. R. Patil, Head of the Department of Chemistry and former head Prof. P. P. Hankare, Prof. M. B. Deshmukh for their good wishes and whole hearted support.

I also thank to Prof. P. N. Bhosale and Dr S. S. Kolekar, Prof. M. A. Anuse, Prof. G. S. Gokavi, Dr. U. V. Desai, Dr. G. B. Kolekar, Dr. R. S. Salunkhe and Prof. N. P. Hilage, Dr. P. V. Anrushule, Dr. D. M. Pore, Dr. G. S. Rashinkar, Dr. D. H. Dagade and other teaching Staff for their help and encouragement.

I must acknowledge the mute support and affectionate treatment of Mrs. Mohite madam that I could learn a lot from her during my tenure of research. I greatly acknowledge to all my primary, high school and college teachers especially Dr. A.D. Langade, who helped and wished me success in my research.

My special thanks are due to my present and past laboratory colleagues Guranath Nikam, Namdev Madane, Samir Tamboli, Kiriti, Zambare sir, for their cheerfull co-operation and help in every aspect throughout this work. My thanks are due to my friends, Rekha Nile, Varsha, Shirisha, Aishwarya, Vaishali, Punam, Tarannum, Rupali, Kavita, Ashish,

A special thanks goes to my beloved brother Prashant and my dear sister Ashwini who has provided me all type of moral and emotional support throughout my life.

Great thanks also goes to my father-in-law Shri. K. G. Lathode and mother-in-law Sou. A. K. Lathode and Lathode family. I specially express my deepest appreciation to my husband Sachin Lathode who in spite of their hard times and suffering continuously support and encouraged me to complete my research.

Lastly, I offer my regards and blessings to all of those who supported me in any respect during the completion of my research work. Henry J. Tillman once said "If you are not part of the solution then you are part of the precipitate". So I would like to thank everyone again for keeping me as part of the solution.
