Acknowledgement

I could accomplish the present work through the mélange of immense encouragement and timely guidance of Dr. A.K.Taj, of the Department of Defence and strategic studies, University of Pune, Pune 411007, my Research Guide, who devoted his resounding knowledge and vast experience in the academic field. His unmatched enthusiasm, monumental patience and constant supervision despite his busy schedule, inspired and enabled me to finish this work with dispatch. Words fail me when I have to express my indebtedness to him. I am indeed indebted to him for life.

I also acknowledge my gratitude to Professor Skrikant Parnjnae, Head of the Department of Defence & strategic Studies, University of Pune, Pune 411007 for the advice and cooperation from time to time when needed.

My personal thanks to my wife, Morad bibi, my son Amir Hossein and my daughter Paryian, who stood by me all the time during the academic rigors involved in the completion of this thesis. They sacrificed their opportunities to enjoy the beauties of the Pune of India, more often than not to afford me ample time and devotion to complete my thesis.
I remain in debt of my fellow friends, Mr. Jaffer Bayrd and his fam for their constant help and support at various stages of this work.

I must record my sense of appreciation towards my mother and Fatl (he was died in November 2006) and also my mother-in-law and father-in-law for their continued support and encouragements. Their blessings were always with me when I undertook this work which would lead to my Ph. degree. The kind co-operation, back up and moral support of my brothers and sisters, are highly appreciated. Other family members and relatives were kind to me throughout my studying years.
