ACKNOWLEDGEMENTS

- To my guide, Dr. A.K. Varma, for his support, advice and discussions, which I will always appreciate.

- To the Dean, School of Life Sciences, Prof. Asis Datta for ensuring I had all the essential facilities for my work.

- To Alex (Mr. A.C. Alexander), for all his help during the course of my work in the C.I.F. and otherwise.

- To Mr. R. N. Saini who made the diagrams for this thesis in record time.

- To Dr. Nam Prakash, I.A.R.I., Delhi for his help with the electron microscopy of glutamine synthetase.

- To C.S.I.R. for providing me with a fellowship throughout the course of my work.

- To my friends, the impossible task of thanking all of you who helped me in every possible way and without whom all this work would never have been completed.

- To my parents, for having given me the incentive to come here and study.

- And lastly, to Nandu, for everything.

Angeli Lal Menon.
