List of Tables and Figures

Fig 1.1 - Economy-environment interactions 4
Fig1.2 - Schematic representation of the predicament of developing countries 6
Fig1.3 - Forest-society interaction 9
Fig1.4 - External cost and decision making cost functions 15
Fig1.5 - Composite cost function 15
Fig1.6 - Basic relationship among the components of Oakerson’s model 20
Fig1.7 - Dynamic model of Oakerson’s components 21
Table 4.1 - Area Covered by different species in Almora West forest division 65
Table 4.2 - Details about ranges 69
Table 4.3 - Area under encroachments 77
Table 4.4 - Area under plantations for various purposes 84
Table 4.5 - Fire protection success 85
Table 4.6 - Timber extracted for various purposes in the first eight years of the Working Plan (1986-87 to 1995-96) 88
Table 4.7 - Actual distribution of timber against the target in the first eight years of the plan. 89
Table 4.8 - Percentage of distribution of timber against extraction 89
Table 4.9 - Area under different felling categories 90
Table 4.10 - Timber yield for various purposes 90
Table 4.11 - Actual distribution of timber against target 91
Table 5.1 - Forest types in the district 110
Table 5.2 - Land use categories 110
Fig 5.1 - Matrix of participatory management 117
Table 5.3 - General details about FPCs in the district 118
Fig 5.2 - Forest hierarchy at field level 122
Table 5.4 - Cost of demarcating boundaries in FPC areas 129
Table 5.5 - Percentage of the FPCs falling in different categories 141
Table 5.6 - Afforestation to prevent soil erosion 142
Table 5.7 - Afforestation for ecological balance 143
