Acknowledgements

I would like to place on record, my profound sense of gratitude and unfathomable indebtedness and sentiments to all those who helped me and extended their kind co-operation to me in bringing out this research to a successful culmination, knowing full well that my words are no substitute for the trouble they have taken for me.

First and foremost, with a deep sense of gratitude and respect, I bow my head at the feet of “GOD” with whose blessings I have reached this stage in the academic journey of my life.

I wish to express my profound sense of gratitude to the president Prof. Chitra Purohit, and Vice-Chancellor Prof. Aditya Shastri of Banasthali University, for providing state of the art facility for research at the Vidyapith and for developing this institution into a world class university only by the dint of their rare academic farsightedness. I also feel indebted to them for supporting this research work by providing me first a Research associateship, and then, a Teaching assistantship.

I sincerely acknowledge the financial assistance provided by DST, Rajasthan. I would be failing in my duty, if I don’t acknowledge the contribution of Agricultural Research Station, Durgapura, Jaipur, Rajasthan and Indian Institute of Pulse Research (IIPR), Kanpur, U.P. for providing me the seeds of the bean varieties I worked upon. Thanks to the librarian and other staff of Bansthali Vidyapith, NISCAIR, Delhi and IIT Delhi for providing me the relevant literature for research not only gratis but also well in time to plough into this study. With all the warmth of humility in my heart, I wish to express my sincere feeling of respect and thanks to Mrs. Amita Sharma, better half of my guide for acting as per her name and for always cheering me up through every thick and thin, and for giving me a moral support during this work. I admire with great reverence her interest and concern to see my work reach the finishing line.
My spirited and honest acknowledgment to the Head, Department of Home Science, Dr. Indu Bansal, for providing me this opportunity to carry out my research work. I would like to extend my heartfelt respects and thanks to teaching faculty of Food Science and Nutrition for their all round and cooperation. I wish to convey thanks to my fellow researcher’s Ms. Nidhi Agarwal, Ms. Archana, Ms. Preeti Verma and Ms. Shivanki Agarwal, for lending a helping hand at every stage of this work which I thankfully acknowledge in no uncertain terms.

In exact sciences like Nutrition, laboratory facilities are indispensable for any successful research work. Working in the lab requires support from an array of people. I deeply appreciate the help rendered to me by the non-teaching staff of the department, viz. Mr. Vimal Jain and Ms. Kamala Pareek for their generous help, good-will and co-operation along with the lab attendants (Late Sh. Ram Singh, Sh. Mukesh Pareek, Sh. Mohan Sharma, Sh. Mahesh Yadav, Sh. Mukes Gujjar and Smt. Satyabhama Pareek) for help in all phases of laboratory work.

I extend my genuine thanks to all panelists (M.Sc. Final Year) for their kind co-operation.

None could ever thrive in life without the blessings of her parents and elders in the family. I wish to express my reverend gratitude by remembering my beloved father Late Shri Satyaveer Singh, who laid the foundation of my educational carrier and always longed to see me, reaching this height. His contribution is invaluable and cannot be acknowledged in words. My mother Mrs. Krishna Singh gives me a great source of inspiration and motivation. My husband Mr. Avijit Chaudhary is giving me constant encouragement and full support has paved my way no less towards reaching the goal.

I shall always remember the co-operation given to me by my father-in-law Capt. Nawab Singh Chaudhary, mother-in-law Mrs. Sharda Chaudhary, sister-in-law Ms. Bineet Chaudhary and brother-in-law Mr. Ranjeet Chaudhary. I wish to convey my heartfelt thanks to all of them. I find the words inadequate to express my feelings of joy for the affection and encouragement which I received from my elder
sister Mrs. Richa Singh and my brother-in-law Mr. Saurav Singh when this work was in its crucial phase. Ever smiling and charming face of my little nephew Aaryansh acts as an energy booster and elixier for me.

No words are befitting enough to express my deep sense of appreciation to my friends Ms. Ruchi Holkar and Ms. Geetanjali for their support during this work. Last but nevertheless the least, I would humbly like to put on record my deep sense of indebtedness to all those who have contributed directly or indirectly in transforming an idea into reality in the form of this thesis.

Banasthali University
