A Word of Gratitude

“Guru is someone, who stands with us patiently, who insists us for the essence of life, and who tells us about the fundamentals of the moral and professional education.”

With deep regards, overwhelming sense of pride and genuine obligation, I seize this jubilant occasion to express my sincere, heartfelt, and reverential gratitude to my esteemed supervisor Dr. Bhawani Singh, Ex-Associate Professor, Department of Chemistry, Banasthali Vidyapith, Banasthali (Rajasthan) for his valuable, highly knowledgeable and illuminating ideas, suggestions, critical evaluation, and expert advice on the designing and execution of this research work in the best possible way. Inspirational thoughts of my supervisor made me able to understand that knowledge is central part of the intellectual work.

I have gained so much of knowledge during this study through my interaction with him on various points ranging from basic chemistry to advanced research. He educated me on different aspects of the subject and told me about the importance of work discipline as well as he encouraged me to reach much above than my natural abilities. I am extremely fortunate to have been trained and initiated into this scientific world under his valuable guidance.

“A great teacher is one who not only imparts the knowledge to his scholars, but also awakens the interest of learning in them, and makes them eager to pursue it for themselves.”

(Neha Bhardwaj)
