ACKNOWLEDGEMENT

It is my pleasure to thank “The Almighty” to make this research program a successful one. It is my privilege and pleasant duty to thank My Parents Mr.K.Thangam and Mrs.T.Pandiyammal for their continuous love, patience, blessings, prayers and financial support which helped me to complete research work successfully.

With deep sense of gratitude, I express my personal indebtedness and gratefulness to my research guide, Dr.C.Balasubramanian, Associate professor, Department of Zoology and Microbiology, Thiagarajar College, Madurai, for giving me an opportunity as UGC-Junior Research Fellow. His constant encouragement, free hand approach and valuable guidance made me to complete this research program successfully.

I do specially thank University Grants Commission (UGC), New Delhi for providing financial assistance through UGC Major Research Project (Ref. No: 38-250/2009 (SR), dated 24th December 2009) which has given me a confidence to move ahead to pursue my Doctorate degree.

I am grateful to Dr.K.G.Sivaramakrishnan, U.G.C.Emeritus Scientist, Department of Zoology, Madras Christian College (Autonomous), Chennai for his valuable guidance, encouragement in identification and verification of mayflies. In addition to that, he gave constructive criticisms for the completion of this research work. His affection, benevolent understanding, and care are my key motivation.

I would like to thank Prof. T. Manoharan, Former Head, Department of Zoology, Thiagarajar College, Madurai for his unstinted support and motive during the course M.Phil program and UGC-JRF.

I wish to express my deep sense of gratitude to our President, Mr. Karumuthu T. Kannan, Secretary Mrs.Uma Kannan, Mr.A.Thamaraichelvan, Former Principal, Dr. T.Rajasekar, Principal and Dr.Rm.Murugappan, Head, Department of Zoology and Microbiology, Thiagarajar College, for providing all the facilities throughout my research program.
I express my sincere gratitude to Dr. M. Thiruvalluvan, Dr. C. Ravi, Dr. K. Rajendran (Associate Professor of Botany), Dr. S. Nagarajan and all the faculties in the Department of Zoology, Thiagarajar College (Autonomous), Madurai for their good will and encouragement.

I express my personal gratefulness to Dr. A. Balasubramani, Assistant Professor, DDE, Madurai Kamaraj University for his benevolent understanding during my MPhil program.

I express my personal indebtedness to Prof. S. Kulandaivel and Dr. Poornimakkani with respect to their academic interaction about molecular study.

I thank Mami (Mrs. Saraswathi Sivaramakrishnan) always welcomed and made me stay very comfortable in Chennai. I also thank Mrs. Kala Balasubramanian for her care and providing food during field trips.

This is pleasant duty to thank my senior Dr. C. Selvakumar, Post doctoral fellow, Madras University, Chennai in collection and identification of mayflies.

Heartfelt thanks to my good friend T. Kubendran, helped in all stages of this work. He is constant companion for valuable support and kind in sampling and preservation of insects in every field trip.

Heartfelt thanks to my good friend M. Jegatheesan, Research Scholar in Botany helped in all stages of my research program. He is also constant companion for support and kind in publication and completion of this research work.

I am very much grateful to my senior Dr. D. Kodimuthri, Assistant Professor in Chemistry, Bharat Nikethan Engineering College, Andipatti for his affection, benevolent understanding, and financial support.

It is pleasure to thank my senior Dr. P. Vinayaga Moorthi, Senior Research Fellow (SRF-DST), Central Institute for Cotton Research, Coimbatore for his care, encouragement, and continuous support during this research work. He motivated me in learning of Gel electrophoresis and Chromatography during my MPhil degree and made me initial attempt to identify aquatic insects.
This is time to thank UGC Project fellows, Dr. K.Vignesh, Mr.T.S.Saravananan, who continuously gave their valuable support regarding UGC communications and made me easier to complete UGC project.

My heartfelt thanks to Mr. S. Baskaran and Mr. Kaliraj Research Scholars, Department of Animal behavior and Chronobiology, Madurai Kamaraj University, Madurai for their encouragement in learning instrumentation during course of my M.Phil and Ph.D program.

I am very much grateful to all my friends Dr. P. Muthukrishnan, Dr. Ilayaraja, Mr. Joyson Joe Jeevamani, Mr. S. Murali Krishnan, Mr. M. Mahesh, Mr. J. Silambarsan, Mr. Raja, Mr. M. Malraj. Former PG student of Microbiology, Mr. T. Arunraja, Mr. A. Muthuvazhivittan, Mr. S. Mohan. Former PG students of BRM, (Late) Mr. Karthikaisamy (Economics), Mr. K. Tamilselvan (Former M. Phil. Scholar in Botany), Mr. C. P. Muthupandi, Mr. R. Ramaraj M.Phil Scholars in Botany, Mr. Kamaladhasan, Research scholar in Madurai Kamaraj University, Mr. C. Kumar, Mr. Chandru and Mr. Satheeshkumar Research Scholars, Department of Environmental Science, SPKCES, Manonmaniam Sundharanar University, Alwarkurichi, who continuously supported me during the research program.

I extend my hearty thanks to my relatives Mrs. S. Rajeswari and K. Alexpandian who continuously gave their valuable care, kindness and financial support. I specially thank to Mr. M. Nagaraj (Former M.Sc Student in Zoology), Mr. Karthi (M.Sc., Chemistry), Mr. Ganesan (Valiparai) and his family members, Mr. G. Silambarasan (Valiparai), Alagarsamy chettiar and his family members (Kurangani), Mr. Arun and his family members (Bodi-Meenakshipuram), Swami Asirvathamani (Gadana dam), Ayya Vaikunda Swami Mandapam (Papanasam) and People inhabiting in and around Western Ghats for their continuous support and kind co-operation throughout the research work.

T.RATHINAKUMAR
