CONTENTS

List of plates .................................................................i
List of figures .............................................................ii
List of tables ....................................................................vii

General Introduction .........................................................1
Study area description .....................................................8
Literature review ............................................................12
Objectives .................................................................18

CHAPTER I

GENERAS AND SPECIES OF MAYFLIES (INSECTA: EPHEMEROTERA)
FROM STREAMS AND RIVERS OF THE WESTERN GHATS

Introduction .................................................................19
Field collection and Preservation .....................................20
Identification .....................................................................21
Systematic Organization ................................................21
Key to the larvae of Ephemeroptera of SouthernWestern Ghats .........22
Higher taxa of Ephemeroptera recorded from Southern Western Ghats ....32
Annotated list of species of Ephemeroptera from streams and rivers of
Southern Western Ghats .................................................34

CHAPTER II

DESCRIPTIONS OF NEW TAXA OF MAYFLIES (INSECTA:
EPHEMEROTERA) RECORDED FROM STREAMS AND RIVERS OF
SOUTHERN WESTERN GHATS

A new species of Isonychia .................................................86
A new subgenus and species of Megaglena ..........................90
First record of Povilla .....................................................93
A new species of Caenis ....................................................96

CHAPTER III

DIVERSITY AND SPATIO-TEMPORAL DYNAMICS OF MAYFLIES
(INSECTA: EPHEMEROPTERA) IN STREAMS AND RIVERS OF
SOUTHERN WESTERN GHATS, INDIA

Introduction .................................................................99
Materials and Methods ...............................................103
CHAPTER IV

CONSERVATION OF MAYFLIES FROM CHOSEN RIVERINE REGION OF SOUTHERN WESTERN GHATS

Introduction ...............................................................112
Materials and Methods .............................................114
Results .......................................................................116
Discussion ...............................................................117
Conclusion ..................................................................119

SUMMARY ..................................................................120
