A Word of Gratitude

“Guru is someone who patiently stands by us and acquaints us with the essence of life. With the blessings of Almighty I found a wonderful Guru who proved that learning can be joyous and pleasant experience”

With deep regards, overwhelming sense of pride and genuine obligation, I seize this jubilant occasion to express my sincere, heartfelt and reverential gratitude to my venerable supervisor Prof. Dharma Kishore, Ex-Head, Department of Chemistry, and presently Dean Administration and Secretary Banasthali University, Banasthali (Rajasthan) for his esteemed, valuable, highly knowledgeable and illuminating ideas, suggestions, critical evaluation, and expert advice on the designing and execution of this research problem in the best possible way. His contribution in the culmination of this work is so mammoth that the more I write the more will remain unwritten. I have gained so much of knowledge during this study through my interaction with him on various points ranging from basic chemistry to research. Even the toughest problems seem to melt away by his power of scientific analysis of facts and figures. In fact he is the one who took me to the shore from sea. It is his benign benediction which gave me strength to reach this height of glory. I feel proud to have carried out the work under his supervision to put in my best in this work.

A great Guru is one who not only imparts knowledge to people but also awakens their interest in it and makes them eager to pursue it for themselves.

I wish to express my heartfelt gratitude to my respected Aunt Mrs. Nisha Kishore who showed her loving care as mother and benign help as and when it was needed so badly in research. She motivated me to work earnestly in the research work and imbibed in me the requisite determination to complete this work timely. Her unalloyed love and care will ever remain ingrained in my heart.
