I am also thankful to my family members and especially for my uncle for their moral support and trust in me. Finally the most important motivating force behind the completion of this work is the sacred blessings of my beloved mother late Smt. Jayadevi Uttam who passed away when I was three year old. Although life lost the important charms after her untimely death, still I gather ecstasy and feel her presence in every moment of my life.

Above all, I have faith in God, whose blessings form part and parcel of every achievement in life and God gave me an opportunity to think for the future of these children.

However, I am alone responsible for the mistake in the thesis.
