ACKNOWLEDGEMENTS

This doctoral thesis could be finished just because of a blend of Perseverance and Inspiration. Diligence ingrained in me, by my unassuming guardians Mr Krishna Rama Kotian and MrsShakuntala Krishna Kotian. The motivation part was contributed by every one of those individuals who ran over my life, on numerous occasions. They kept on goading me on until I could accomplish my objective.

Above all else, I might want to express my appreciation to Dr R. Varadarajan, Director National Education Society, Bhandup, Mumbai. He is my master in the purest type of adoration and devotion to the field of instruction. I am to a great degree thankful to my aide, Dr Arjun M. Murudkar, Department of Law, Mumbai who has saved his priceless time and guidance on the imperative parts of the proposition.

The whole consequence of my exploration is the result of the aggregate backing that I got from my family. My better half, Mr. Chandra K. Salian has been my aide and rationalist in the most genuine sense. I would not have possessed the capacity to finish my theory without his sharp intelligence and comical inclination. My children, Akash and Anish have included their own particular measure of affection and backing. Truth be told, they were urging me to finish my proposal.

I am in reality thankful to Dr. Vinod Tibrewal, Dr. BalkishanTibrewal, Dr. Madhu Gupta, Dr. Anju Singh, Dr. NishikantJha and Dr. Rakhee for their unrestricted backing in my exploration direction and fruition of theory.

At long last, I might want to thank my association LIC of India, Yogakshema, and Mumbai; for all the learning and experienced picked up in the most recent 25 years. LIC has without a doubt assumed an imperative part in prepping me and guaranteeing achievement in my main goal to finish my doctoral paper.

Much obliged to you God for everything!!!
