ACKNOWLEDGEMENT

It gives me great pleasure to express my deepest gratitude to my guide, Dr. T. K. Chondhekar, Reader, Department of Chemistry, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, for his invaluable guidance, continuous encouragement, his patience and willingness to help in spite of busy schedule, which has been instrumental in successful completion of this work. It is only due to his constant encouragement and ever-willing readiness for discussion, that I truly learnt several significant aspects of research area. I take this opportunity to record my deepest sense of indebtedness to him.

My sincere thanks are due to Prof. B. R. Arbad for his generous help, valuable guidance and encouragement throughout the progress of this work. I am also thankful to him for providing me "SCOBS" programme.

I would like to thank Dr. V. H. Deshpande, Professor and Head, Chemistry Department, Dr. B. A. M. University, for providing valuable resources such as library, laboratory facilities for carrying out this work.

I am grateful to Prof. D. G. Dhuley, Dept. of Chemistry, Dr. B. A. M. U., Aurangabad, for his keen interest and providing me necessary chemicals. I am thankful to Dr. R. A. Mane, lecturer, Dept. of Chemistry, Dr. B. A. M. U., Aurangabad, for his valuable guidance during the progress of this work.

I am also grateful to Ex Prof., Dr. V. V. Jahagirdar, Prof. M. S. Shingare, Former Head, Chemistry Department, Dr. B. A. M. University, Dr. V. G. Dongre, and Shri. S. R. Sonone, lecturers in Chemistry Department, Dr. B. A. M. University, Aurangabad, for their constant help during the research work.

I am sincerely thankful to Dr. D. S. Mukadam, Professor and Head, Botany Department, Dr. B. A. M. U., Aurangabad, and Shri. B. D. Gachhade for providing me laboratory facilities and useful suggestions during this work.

I am also grateful to Dr. S. C. Mehrotra, Prof., Dept. of Physics, Dr. S. N. Helambe and Shri. N. M. More for their valuable guidance in using computer programme and providing necessary facilities.
My special thanks are due to Dr. M. K. Saheb, Director (Biotechnology) and Shri. J. K. Ambulgae, senior research associate, Wockhardt Research center, Aurangabad, for providing some facilities not available in the department.

I offer my sincere thanks to U. G. C., New Delhi, for awarding me teacher fellowship.

I feel indebted towards the Principal, Shri. R. T. Deshmukh and Shri. R. R. Borade, Ex-Principal and Management of M. S. P. Mandal’s Deogiri College, Aurangabad. I am also grateful to Dr. C. P. Gavane, Head, Chemistry Department, Deogiri College, Aurangabad.

I hereby express my thanks to Sow. Manda Chondhekar and Sow. Lata Arbad for their constant encouragement during present research work.

I am also thankful to my senior research fellows Dr. S. D. Naikwade, Dr. S. K. Akuskar and Dr. S. G. Shirodkar, who helped me in direct or indirect way during the course.

I am indebted to my coworkers Shri. S. D. Salunke, Shri. P. S. Mane, Shri. Shankarwar, Shri. Bondage and Shri. Bhigolikau for their cooperation throughout the progress of this work. I am also thankful to my friends Smt. C. S. Patil, Smt. C. D. Thakur, Smt. A. S. Rajbhog and for their help and suggestions.

I would like to thank many individuals, who have helped me directly or indirectly to successfully complete my doctoral research work.

On the eve of submission of the thesis, I am fondly remembering the blessings of elders in my family.

My acknowledgement will be incomplete without thanking my husband, Shri. B. G. Pande, who kept my moral high during the course of this work. My very special thanks are due to my daughter Miss Priya for her patience and constant encouragement, without which I would not have achieved this goal.

(Smt. S. R. Bembalkar)
Research Fellow
