

ACKNOWLEDGEMENTS

It has been a matter of great pleasure for me in discussing and executing the research topic with my advisor Dr. G. M. Nair, Professor and Head of our department. I express my sincere gratitude to him. Throughout the period, he provided me encouragement scientific freedom and lots of good ideas. His technical and editorial advice was essential to the completion of this dissertation and has taught me innumerable lessons and insights on the workings of academic research.

I would like to acknowledge the financial help received from Council of Scientific and Industrial Research (CSIR), Govt. of India for the award of (F. No. 9/102(175) 2001) Junior and Senior Research Fellowships.

I am grateful to Dr. S. Narasimhan, TR Govindachari Centre for Natural Products, SPIC, Chennai (Director, Ashtagiri herbal research foundation, Chennai) for providing with me free samples of pure azadirachtin-A, salannin and nimbin. I wouldn't have progressed without this help. I must acknowledge Dr. Geetha Gopalakrishnan, Dr. Suresh, Dr. Pradeep Singh and Sri. Senthilkumar of centre for natural products of SPIC science foundation for training me on extraction, isolation, identification and purification procedures of neem secondary metabolites. I must give a special acknowledgement to Mr. Sivaramakrishnan of this group for the help received.

I must thank a number of scientists from various institutes for their kind permission in using the laboratory facilities of their lab, guidance and help: Dr. Sreenivasan and Mr. Hari of BMT Wing, SCTIMST, Poojappura for help received in RP-HPLC analysis during the initial period of my work; Mr. Sreekumar (SCTIMST) for the patience in helping me do SEM analysis of somatic embryos; Dr. Karunakaran, Dr. Santhoshkumar, Dr. Suparna Sen Gupta, Miss. Bhavya, Miss. Smitha and my brother Mr. Mani Shankar Babu of Cancer Biology division of RGCB, Thiruvananthapuram for the help received in carrying out experiments on HCT 116 cell lines with my

samples and Dr. Radhakrishna Pillai, Director, RGCB for the kind permission and Mr. and Mrs. Thakkar of Neem foundation, Mumbai for helping in data collection on various aspects. I also acknowledge Dr. S.P.S. Khanuja, Director, CIMAP for selecting me in CIMAP's Winter School on Molecular Biology.

Many thanks are also due to the librarians of my Department; RRL, Thiruvananthapuram; CIMAP, Lucknow; SPIC science foundation, Chennai; Department of Botany, Annamalai University and Neem foundation, Mumbai.

I would like to express my sincere thanks to Mr. K. Rajeev, UGC FIP fellow of my lab. I have learned various things and ideas from him, particularly basic lessons on secondary metabolism. I must acknowledge Smt. G. Radhamony of my Department for helping me for the guidance in cytological analysis. I would like to express my sincere thanks to Dr. Valsala for the sincere help received. It is difficult to overstate the gratitude to colleagues of my lab Dr. Beena Lawrence, Dr. Manjula, Dr. Elizabeth Thomas, Dr. Remeshkumar, Dr. Rubin Jose, Dr. Pradeepkumar, Dr. Najeema Beevi, Dr. Asha, Dr. Asha Devi, Mrs. Sumitha, Miss. Jaseela and Ms. Lekshmi. Many thanks are also due to the M. Sc. and M.Phil students.

I must acknowledge Professors of other Departments of my University for their permission in utilizing the facilities available there: Dr. Oommen V Oommen, Dr. Mathew Oommen and Dr. Muralidharan, Department of Zoology and Dr. Rajasekharan, Department of Chemistry. I express my sincere thanks to Dr. Balasubramaniam, Professor, Aquatic Biology and Fisheries Department in teaching me statistical analysis of the results.

Many thanks are also due to Dr. Verpoorte, Centre for Drug Research, University of Leiden and Dr. Laurence Alemanno, Biotrop Laboratory, CIRAD, Montpellier, France for the help received.

I also want to thank Dr. Mariamma Cherian, Dr. Bindu, Dr. Unnikrishnan, Dr. Ganga Prasad, Dr. Radhamony, Sri. Sait and Sri. Shaiju

of my Department for their various help. Finally I also want thank all the Garden staff of Botany Department, particularly Mrs. Jagadamma and Mr. Babu.

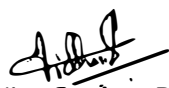

I thank my parents and grandmother for giving me life in the first place, for educating me with aspects from both arts and sciences, for their unconditional support and encouragement to pursue my interests, even when the interests went beyond boundaries of language, field and geography. I am greatly indebted to my devoted brother and it is not sufficient to express my gratitude with only a few words.

Finally, all these research work could not have completed without the inspiration of Dr. S. Narasimhan. It is not often that one finds a person who always finds time for listening to the little problems and roadblocks that unavoidably crop up in the course of performing research. To simply put his inspiration, both as a colleague and husband, was essential for the completion of this research problem.

I owe you all with my sincere gratitude,

Kariavattom
