

CONTENTS

	Page
Chapter 1	
Introduction	1
Chapter 2	
The secondary metabolites selected, their significance and objectives of the present study	46
Chapter 3	
<i>In vitro</i> synthesis of five secondary compounds in callus cultures	56
Chapter 4	
Growth, production curve and localization of terpenoids and flavonoids in cell suspension cultures	86
Chapter 5	
Analysis of cell growth, viability and production of secondary metabolites in extended stationary phase cell suspension cultures	118
Chapter 6	
Influence of precursors and permeabilizers on production of secondary metabolites in long-term production medium	144
Chapter 7	
Somatic embryogenesis and secondary compound exploitation	157
Chapter 8	
Efficacy of pure neem compounds and crude samples on HCT116 - Colorectal cancer cell line	182
Chapter 9	
Summary and Conclusions	206
References	217
