ACKNOWLEDGEMENT

I am deeply indebted to all the people who have contributed directly or indirectly to the successful completion of the thesis. First and foremost I would like to express sincere gratitude to my supervising teacher, Prof. Ashok Pandey, Head, Biotechnology Division, National Institute for Interdisciplinary Science and Technology (NIIST), CSIR, Trivandrum for his valuable suggestions, incessant guidance and unfailing encouragement, which has been very helpful during my whole research work.

I am thankful to Dr. Suresh Das, Director, NIIST for providing me the necessary facilities and infrastructure to carry out my research work at NIIST. Thanks are also due to former Directors of NIIST during my tenure, Professor T.K. Chandrasekhar and Dr. B. C Pai, for providing me all facilities at the laboratory.

I am grateful to the Council of Scientific and Industrial Research (CSIR), New Delhi, India for the financial support provided for my research work.

I am thankful to Dr. Peter Koshy, Head (Retd), Electron Microscopy Division and Mr. M.K. Chandran, for their assistance in scanning electron microscopic images.

I deeply appreciate Dr. Raghu, Agroprocessing Division, for helping me to do the in vitro cytotoxicity studies.

I record my gratitude to late, Dr. Prema, Dr. K. Madhavan Nampoothiri, Dr. Rajeev K Sukumaran, Biotechnology Division, NIIST, CSIR, Trivandrum for their valuable comments and help during my research work.
My sincere and warm thanks to Dr. Sudheer Kumar Singh, Dr. Syed Dastager, Dr. Binod, Dr. Sindhu, Kiran Kumar, Archana and Vani Sankar, Biotechnology Division, NIIST, CSIR, Trivandrum for their help during my research work. I deeply acknowledge the technical supports provided by the technical staffs of the division, Dr. Vijayalekshmi Amma, Mr. Sivankutty Nair and Mr. Prakash.
