Contents	7
Abbreviations	8
Abstract	11-13
Chapter 1	
Introduction	14-25
Review of literature	26-45
Aim and scope of the study	46-49
Chapter 2	
Standardization of cell culture conditions, RNA isolation and RT-PCR techniques	50-75
Chapter 3	
Role of estradiol-17 β on the expression pattern of AP-1 factors in MCF-7 cells	76-95
Chapter 4	
Effect of PMA and Forskolin on the expression pattern of AP-1 factors in MCF-7 cells	96-123
Chapter 5	
Effect of antisense Oligos of CDK4, c-Jun, and c-Fos on proliferation and expression of cell cycle regulators and apoptosis genes in cancer cells	124-156
Chapter 6	
Summary and conclusion	157-166
References	167-195
List of publication and abstracts	196-199
