

TABLES

<u>Table</u>	<u>Page</u>
2.1. Complementary distribution of flapped [R] & [R ⁿ]	46
2.2. Comparative representation of F ₁ , F ₂ & F ₃	54
2.3. Observations of nasalized vowel spectra	62
2.4. Comparative formants of diphthongs	65
2.5. Spectrographic characteristics of /h/	70
2.6. Comparative length of semivowels vs stops/ nasals	76
2.7. Comparative steady state of F ₁ and transitions of /r/ and /l/	76
2.8. Comparative length of transitions of stops	87
2.9. Comparative length of transitions (plosives and affricates)	87
2.10. Fricatives in Nepali	88
2.11. Allophonic relationship of fricatives	88
2.12. Nepali Consonant Chart	90
2.13. Feature matrices of vowels	91
2.14. Feature specification chart (sonorants)	92
2.15. Feature specification chart (obstruents)	93
2.16. Feature matrices of the oral vowels	95
2.17. Feature matrices of nasalized vowels	97
2.18. Feature matrices of glides	98
2.19. Feature matrices of nasals	99
2.20. Feature matrices of plosives and affricates	100
2.21. Feature matrices of fricative	101
3.1. Summary chart of postnasalization	143
3.2. Nasal shift in vowels that follow the nasal	147
3.3. Environments for nasal shift	149
3.4. Apical and laminal consonants	157
3.5. Syllable statistics	225
3.6. Initial Clusters	227
3.7. Medial clusters (C ₄ :C ₁ relation)	228

<u>Table</u>	<u>Page</u>
4.1. Length of geminate vs non-geminate consonant	232
4.2. Length of the vowel before a consonant	234
4.3. Length of the vowel before 'solids' vs liquids	237
4.4. Length of vowel before oral vs nasal consonant	238
4.5. Length of vowel before stop vs fricative	238
4.6. Length of vowel before cluster vs noncluster	238
4.7. Length : vowel height correlation	239
4.8. Length of vowel in open vs closed syllable	240
4.9. Length of vowel before geminate/nongeminate	241
4.10. Length of liquid	242
4.11. Occurrence and length of /r/	243
4.12. Length of cluster vs their components	246
4.13. Length of geminates vs nongeminates	247
4.14. Length of consonants before glides	248
4.15. Length of cluster with liquid as second component	249
4.16. Length of stops	250
4.17. Length of glide vs components	252
4.18. Length of a diphthong vs components	253
4.19. Length of [t ^h A] and number of syllables	254
4.20. Length of the syllables	255
