ACKNOWLEDGMENT

This Thesis has been completed under the guidance of Dr. N.K. Thakare (formerly of Marathwada University), Professor of Mathematics (Lokmanya Tilak Chair), Head of the Department of Mathematics, University of Poona, Pune.

I am proud of having worked under the guidance of a person with tremendous zeal for Mathematics. His constant encouragement made the task of completing the Thesis a reality. As a token of my feelings I express my gratitudes to him.

My thanks are also due to my teachers Prof. B.G. Pachpatte, Head and Prof. V.K. Deshpande, both of Department of Mathematics, Marathwada University, Aurangabad. In particular, occasional discussions with Prof. V.K. Deshpande are gratefully noted. Thanks are also due to Dr. A.D. Joshi (Pune).

The encouragement received from my parents and my wife Dr. Mrs. M.S. Nimbhorkar is affectionately recorded. The help rendered by my nephew Mr. M.V. Deshpande is worth mentioning. The hospitality shown by Mrs. P.N. Thakare during the period of my stay in Pune will always be a sweet memory.
My thanks are also due to my friends
Mr. S.R. Thakare, Mr. S.G. Gayal, Mr. A.B. Ghumare,
Prof. A.V. Rairikar, Mr. D.M. Kawathekar, Mr. P.M.D. Khan
and Mr. M.A. Hussain.

I am thankful to the authorities of the U.G.C.
and Marathwada University, Aurangabad for financial
assistance in the form of Junior Research Fellowship and
tavel grant etc. The assistance given by the authorities
of University of Poona and Jai-Hind College, Dhule is
gratefully acknowledged.

The assistance in the form of accurate typing
by Mr. M.M. Deshmukh is delightfully recorded.

Date : June 1986
