ACKNOWLEDGEMENT

I have no words to express my deep sense of gratitude for Dr. Mrs. R. Keshvan my research guide and Head, Department of Zoology, Science College, Nanded. without her guidance and constant persuasion the work would not have seen the light of the day. I am indebted to Principal Dr. B. R. Keshvan who has not only permitted me to start research work but his constant queries about the progress of the work proved as a motivating factor for me. It would not be out of place to mention the name of Principal S. D. Mahajan the Secretary of Nanded Education Society, our management always shows parental attitude for all good activities in our institution.

I would be failing in my duties if I forget to mention the guidance and help given by Dr. Mrs. Bapat, Reader, Marathwada University, Aurangabad. My sincere thanks to Dr. Madlapure for his co-operation. My senior colleagues Dr. Patil, Dr. Mulgir and Dr. Kulkarni have helped me from time to time. Their help has proved to be of immense use in building courage to bear the blues in research work. Without the active co-operation of Balaji it would not have been possible for me to
complete my work. He left no stone unturned to make the fish available whenever I required it.

I am also thankful to Mr. S. R. Tumma for his neat, clean, painstaking typing work.

(Mrs. Devayani Gogte)
