xv. Drug Description
   ✤ Vernacular Names
   ✤ Morphology

xvi. Geographical distribution

xvii. Substitutes and adulteration

xviii. Phytochemistry of the drug

xix. Chemical constituents

xx. Trade and commerce

xxi. Propagation and cultivation

xxii. Sulphonylurea Review
   ✤ History
   ✤ Mechanism of Action
   ✤ Absorption, Fate, and Excretion
   ✤ Adverse Reactions
   ✤ Therapeutic Uses

xxiii. References

8. Chapter -II Disease Profile
   ✤ Background of Published Papers
   ✤ Classical Review
   ✤ Diabetes and relation with Pameha / Madhumeha
   ✤ Review literature Pameha / Madhumeha

   ii. Historical Review

   iii. Vedic Period

   iv. Samhita Period

   v. Medieval Period

   vi. Modern Period

   vii. Etymology of Pameha / Madhumeha

   viii. Classification of Pameha
      ✤ Etiological Factors of Pameha / Madhumeha
      ✤ Poorvarupa and Rupa
      ✤ Samprapti of Madhumeha
9. Chapter -III Standardization and Safety Study

- Background of Published Papers
- Standardization
  - Introduction
  - Authentication
    - Collection
    - Ayurvedic Methods
    - Pharmacognostic study
      - Macroscopy study
      - Microscopic study
- Standardization according to WHO / API guidelines
  - Determination of Foreign Matter
  - Determination of Ash
  - Determination of Acid Insoluble Ash
  - Determination of Alcohol Soluble Extractive
  - Determination of Water Soluble Extractive
- Analytical Study
  - Introduction
ICP - Optical Emission Spectrometry (ICP-OES) 103
High Performance Liquid Chromatography (HPLC) 105
Fingerprinting Study- Herboprint™ 105
High Performance Thin Layer Chromatography (HPTLC) 107
Florescence Study 110
Preliminary Phyto-chemical Study
  Test for Saponins 110
  Test for Tannins 110
  Test for Flavonoids 110
  Test for Triterpenoids 110
  Test for Alkaloids 110
Safety study
  Introduction 112
  Acute toxicity 112
  Sub-acute toxicity 113
References 114

10. Chapter -IV Clinical Study 117
Background of Published Papers 117
Introduction 121
Aims and objects 122
Plan of work – Clinical study design 122
Methodology
  Collection of Drug 122
  Preparation of Drug 122
Clinical study
  Procedure 123
  Base line Screening 124
  Criteria for Diagnosis 124
  Inclusion criteria 125
  Exclusion criteria 125
  Treatment Groups 125
Drug Regime

Dose, Duration and mode of Administration 125
Diet and Restriction 126

Criteria for Assessment of the Treatment

Objective 126
Subjective 127

Acceptation, Rejection Criteria and Rescue Medicine 131

Follow-up Study 131

Adverse Drug Reaction (ADR) Monitoring 131
Assessment of overall effect of antidiabetic action 131
Statistical Analysis 132
Observations 133

Results 143

Overall effect of Therapy 161
Chi-Square Test 162
Reference 162

11. Chapter -V Discussion and Conclusion 165

Discussion 165
Probable Mode of Action of Kakamachi 176
Conclusion 177
Scope for Future study 178

12. Chapter -VI Summary 179

13. Bibliography 180

14. Annexure 198

15. Information Consent Form 201
