ACKNOWLEDGEMENT

Words are often too weak to express one’s inner feeling of indebtedness to one’s benefactors. The difficulty haunts me in penning down the deep sense of gratitude.

It is a matter of immense pleasure for me to express my veneration to my adroit supervisor, Prof. (Dr.) Raj Kumar for his kind help, active guidance and constant inspiration throughout the course of this investigation without which it was not possible to complete this work in the present form. It has, indeed been a very pleasant and rewarding experience to work under his supervision.

Considerable gratitude is due to Dr. Broto Rauth Bhardwaj, dedicated researcher in the field of strategic management, Technology Management and Flexible Systems management, in carrying out this research project.

I heartily thank my friends and my colleagues for helping me in the collection of the data. Their generous cooperation helped me to complete this thesis.

Last but not the least I thank my parents, and my families for their kind help throughout my research work without whom, this study would not have been completed.
