List of Figures viii

List of Tables x

1 Introduction 1
1.1 Embedded System 1
1.2 Applications 2
1.3 Components 4
1.4 Parameters for an Efficient Design 7
1.5 Design Methodologies 9
1.6 Objectives 11
1.7 Organization of the Thesis 11

2 Processor Selection: Review, Classifications and Case Studies 13
2.1 Introduction 13
2.2 Processor selection 16
   2.2.1 Processor Selection vs. Architectural Selection 16
2.3 Classification of Existing Methods 17
   2.3.1 Without On-Chip Components 18
   2.3.2 Manual Method without On-Chip Components 18
   2.3.3 Fully Automated Method 22
   2.3.4 With On-Chip Components 25
   2.3.5 Manual Method with On-Chip Components 26
   2.3.6 Semi Automated Method with On-Chip Components 27
2.4 Case studies 29
2.5 Proposed Approach 31
2.6 Summary 32
