“When we tackle obstacles, we find hidden courage and resilience we did not know we had. And its only when we are faced with failures do we realize that these resources were always there within us. We only need to find them and move on with our lives”.

Research is a never ending process and success cannot be achieved alone. The credit for successful completion of this project is shared by many people. I have not traveled in a vacuum in this journey rather a journey is easier when you travel together and problems become opportunities when the right people come together. At the end of present project, memories reel in my mind reminding me to the ups and downs confronted during work. Here, life gave me the chance to see the life in a correct angle due to encouragement of numerous people including my family, well wishers, my friends and colleagues. I learned that only way we are going to get anywhere in life is to work hard. It gives me immense pleasure to acknowledge with gratitude, the help and guidance rendered to me by a lot of people and who have made it an unforgettable experience for me.

First of all, I submit my thesis at the feet of The Great Almighty. I thank Almighty with whose mercy, it has been made possible for me to reach this so far. I express deep sense of faith to GOD, who graced me in finishing this project. Research is a task, which despite of consistent and dedicated mind with regards to strenuous and hard labor also requires patience with the benediction and grace of Almighty. Today with humility, bowed head, misty eyes, and folded hands when, I am thanking Almighty in these blissful moments, I am incapable of expressing into words.

This PhD has been a journey of life changing experience. The present advance dictionaries are handicapped to give me an appropriate word by which I can express my thanks to my husband Dr. Manish Arora, who untiringly always positively encouraged me to do this arduous task. He is the man of my dreams and always has fuelled me with invincible thought whenever I felt exhausted in my energy and patience. Thanking you is an impossible task because one lifetime is too short to show my gratitude for how wonderful you make me feel every single second.

I always thank to GOD for giving me my dearmost daughter Saanvi Arora whose small small fingers held me when I was lost, the support she gave me at any cost. She is the one who will always be in my heart, because I was thinking she will be the sufferer, when I was planning this to start. Whenever I had entered home, every time she gave me a big hug and everything that’s happened that day just melted away just with her big hug.

Having a lovely family with me was the greatest joy and a driving force for all the success. Words are insufficient to verbalize deep sense of gratitude and regards to my grandparents Late Sh. Gurdas Rai Majithia and Late Smt. Kaushalya Devi. I deeply thank my papa Sh. Ashok Kumar Majithia and mummy Smt. Raj Majithia, who were the real role models in my learning character, showing me the joy of intellectual pursuit ever since I was a child. My parents left no stones unturned in making my career successful, result oriented and humane, with enduring and patient full manner they stood by me during the ups and downs of my life. They have been selfless in giving me the best of everything and I express my deep gratitude for their love without which this work would not have been completed. No one can take their place in this whole world.

Apart, I always extend my thanks to GOD for blessing me with one another beautiful couple serving as my in law parents Sh. Surinder Kumar Arora and Smt. Darshana Kumari. I must say every in-laws family should be like them. They always had played an exemplary role in our lives and I want to make them proud. They continuously supported me in my project work till the end. Whatever I am today is all because of them.
