“Research is a never ending process and success cannot be achieved alone. The credit for successful completion of this project is shared by many people”.

A journey is easier when you travel together and problems become opportunities when the right people come together. At the end of present project, memories unree in my mind reminding me to the ups and downs confronted during work. Here, life gave me the chance to see the life in a correct angle. I learned that only way we are going to get anywhere in life is to work hard. It gives me immense pleasure to acknowledge with gratitude, the help and guidance rendered to me by a lot of people.

First of all, I submit my thesis at the feet of The Great Almighty. I thank Almighty with whose mercy; it has been made possible for me to reach this so far. I express deep sense of faith to GOD, who graced me in finishing this project. Research is a task, which despite of consistent and dedicated mind with regards to strenuous and hard labor also requires patience with the benediction and grace of Almighty. Today with humility, bowed head, misty eyes, and folded hands when, I am thanking Almighty in these blissful moments, I am incapable of expressing into words.

I take this opportunity with pride and enormous gratification to express the feelings of thanks and gratefulness from the bottom of my heart to all individuals who backed me directly and indirectly throughout the materialization of this thesis.

This PhD has been a journey of life changing experience. The achievements and successes that I have managed to accumulate were made possible by the tiredlessness and the selflessness of my great supervisor Prof. A.N. Kalia. His wide knowledge and his way of thinking have been of great value for me. His invaluable guidance, motivation and personal guidance have provided me a good basis for research. He has been a father figure for me all these years I have known him. May god bless him with great joy and health throughout his life along with wisdom to teach and guide the upcoming younger mind.

there for me whenever I needed their help. They built an atmosphere in laboratory where flow of ideas and mutual respect for each other made work easier.

I would like to give special thanks Sumandeep, Yashdeep and Rajwant (Room No. 23) for their nice company in the hostel and making my stay cheerful. You'll always be right here in my heart as my best friends, forever and always until the end. They have been always with me in my up and down during these years, their care, understand me, help me, guide me, support me & love me. I express my sincere affection towards them.

I personally express my thanks to Sardar Ranjeet Singh, Mr. Sewak Singh, Veerpal Kaur, B.P. Yadav, Mr. C.C. Jha, Ms. Rekha, Mr. Kapil and all other non-teaching staff for their help and invaluable assistance. I want to extend my thanks to Mr. Naresh Bansal for providing nice and peaceful environment in library along with excellent books.

Having a lovely family with me was the greatest joy and a driving force for all the success. Words are insufficient to verbalize deep sense of gratitude and regards to my grandparents. I deeply thank my papa Mr. Amrit Lal and mummy Mrs. Anita Rani, who put real matter in my learning character, showing me the joy of intellectual pursuit ever since I was a child. My parents left no stones unturned in making my career successful, result oriented and humane, with enduring and patient full manner they stood by me during the ups and downs of my life. They have been selfless in giving me the best of everything and I express my deep gratitude for their love without which this work would not have been completed and I want to make my parents proud and they continuously supported in my project work till the end. No one can take their place in this whole world. I always thanks to GOD for having parents like them because whatever I am today is all because of them. It is impossible to have my research carrier without the love, affection, devotion, patience and support of my family members. I invariably fall short of words to express my heartfelt gratitude to my sister Priyanka,
