Acknowledgement

I would like to express my deep sense of gratitude to my guide Dr. A.L. Ramanathan, supervisor of my research work, who encouraged me to look into the Himalaya in a different way, as a valuable water resource, as crying and dying Himalaya. I acknowledge his insightful guidance and support which nurtured this research work in the present shape.

I am thankful to Prof. K. G. Saxena, Dean, Prof. V. K. Jain, Ex-Dean and all former Deans, School of Environmental Sciences for providing adequate facilities to carry out this work.

I would like to convey my sincere thanks to Prof. S. I. Hasmain, supervisor of my M. Phil. work who introduced me to this fascinating field of glaciology.

I am also thankful to Dr. Wagnor, Dr. Yves and Dr. Vincent for their help in mass balance studies on the Chhota Shigri Glaciers.

A sincere thanks to the staff of Directorate of Mountaineering and Allied Sports, Government of Himachal Pradesh, Manali, for providing us all the logistic support needed during the field campaigns.

I thank Dr. A. K. Kulkarni, Head, Glaciology Division, Space Application Centre, ISRO, Ahmedabad, for providing adequate facilities during my tenure of work there. I am also thankful to Dr. I.M. Bahuguna, Mr. Rathore, Mr. Sushil and Rupal for their cooperation at Shil.

I would like to thank Council of Scientific & Industrial Research for providing the financial support in the form of fellowship to carry out the research work.

I would like to extend my sincere regards to my seniors Dr. P. G. Jose, Dr. Sarfaraz Ahmed, Dr. Devi Chand Negi, Dr. Jagdish Chandra, Dr. Rajesh Kumar and Dr. Shresht Tiyal for their pain taking efforts and valuable suggestions and help at various stages of the work.

Words fail to express my gratitude for a special person Shruti, a true friend of mine from day one, without whose help and support this work could not have been in the present shape. Thanks Gopu for being a true friend.
Sincere thanks to Ritu, Jyotendra, Senthil and Goutam who helped me in my work at every juncture.

I am grateful to the members of Glaciers Research Group specially Dr. Permanand who proved to be a good co worker. I would like to thank Adhikari ji, Puran, Pritam and Lal Singh for their assistance and dedication in the field and for making each glaciers trip a memorable one.

I am really thankful to my lab mates Dr. Manju, Dr. Sutapa, Dr. Jaya, Bhawna, Vishwa, Sachin, Parjapat, Pankaj, Alek, Mukesh, Jayajet, Rajanumar and Anshumali who not only formed a good team of our research but also provided me an active support during the research work.

I appreciate the company of my friends Manoj, Shastri, Unmesh, Raka, Rajan, Sandeep, Chintu, Paul, Makal, Aman, Robin, Daya, Kaka, Deepu, Anil, Kanhaiya, Bhupaj, Mami, Mangu, Sangeeta, Shilpa, Gulle and all my dear friends in JNU, and would cherish the memories of late night party, gyma dhaba chats, Chaat Samelan, PSR special, caves, elections, debate, late night walks, road sides, moon light trek and each and every moment I enjoyed with them.

I am thankful to all the office staff especially S.D.S Rawat, Shri Ameck Singh and Smt Pant for their moral support and their help whenever I needed during my Ph.D.

I duly acknowledge my juniors, especially Amit, Sanjay, Sangeeta, Bhashwati, Rajesh and Sharmila for being there through all the good and bad times.

It happens sometime, I felt that life is consumed by slow decay - boredom, monotonous work, tension, anger and jealousy but see, here comes a cool breeze of refreshing air and hope, yes Amita and Anshu, thanks for those surprise visits in my lab, every time they came they boosted a new power and refreshment, which lead me to do my work more efficiently.

Can’t forget my old chums, when new one got added, because “A new beam may sweep clean, but the old brush knows all the corners”. Thanks to Ajit, Pratap, Singhri, Sandeep, Neehum, Subirdeep, Meehan and Pinto for being a part of my life.
A small love story, made for each other "type Se". When ever I got bored she took me for a long drive, when ever I got stuck she took me out, when ever I talked to other girls she never felt jealous, when ever I felt alone she was there, any time any where. I still remember the days when we use to sit on PSR side by side talking hours in silence. Seven years have passed but still she is atheletic, never gets tired, she is born to lead, thanks to my bike, my lovely Yamaha RX 100 and her Heculean brother Yamaha RD 350.

I would like to thank Ravi and Mani for their assistance in the lab.

Special thanks to Yumnu, Ansar and Upendra for providing "chai" throughout the day.

A special thanks to my Nani and Uncle, who not only fulfilled my childhood dreams but they always inspired me to do something different, though they are not physically present but their blessing are still there for me ever and forever.

At last but not the least I take this opportunity to thank my small lovely family. My father and mother who has been a pillar of strength for me through all ups and downs. I am also thankful to my sister Smita and Brother Arrind, Papa and Papu and Lunity for their moral support and encouragement. I would like to thank my wife Manisha for being so understanding and caring all through. This work would not have been so smooth without her constant support and moral support.
